

Agreement Name: MOL/Hoegh Autoliners Space Charter Agreement.
Parties: Hoegh Autoliners AS; and Mitsui O.S.K. Lines Ltd.

Filing Party: Rebecca Fenneman, Jeffrey/Fenneman Law and Strategy PLLC.

Synopsis: The Amendment removes Nissan Motor Car Carrier Co., Ltd. as a party and makes conforming changes. The Amendment also updates the address of Hoegh Autoliners AS.

Proposed Effective Date: 4/14/2026.

Location: <https://www2.fmc.gov/FMC.Agreements.Web/Public/AgreementHistory/72>.

Agreement No.: 201465.

Agreement Name: ONE/COSCO PS1 Slot Charter Agreement.

Parties: COSCO Shipping Lines, Co. Ltd.; and ONE Ocean Network Express Pte. Ltd.

Filing Party: Robert Magovern, Cozen O'Connor.

Synopsis: The Agreement would authorize ONE to charter space to COSCO Shipping in the trade between ports in Japan, on the one hand, and ports on the U.S. West Coast, on the other hand. The parties have requested expedited review.

Proposed Effective Date: 5/25/2026.

Location: <https://www2.fmc.gov/FMC.Agreements.Web/Public/AgreementHistory/92663>.

Dated: April 17, 2026.

Jennifer Everling,

Assistant Secretary.

BILLING CODE 6730-02-P

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (Act) (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the applications are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's

Freedom of Information Office at <https://www.federalreserve.gov/foia/request.htm>. Interested persons may express their views in writing on the standards enumerated in paragraph 7 of the Act.

Comments received are subject to public disclosure. In general, comments received will be made available without change and will not be modified to remove personal or business information including confidential, contact, or other identifying information. Comments should not include any information such as confidential information that would not be appropriate for public disclosure.

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Benjamin W. McDonough, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551-0001, not later than May 6, 2026.

A. Federal Reserve Bank of St. Louis (Holly A. Rieser, Senior Manager) P.O. Box 442, St. Louis, Missouri 63166-2034. Comments can also be sent electronically to

Comments.applications@stls.frb.org:

1. *The Dierberg Milne Foundation, Ellen D. Milne, as trustee, both of Santa Barbara, California; and the Dierberg Family Foundation, Michael J. Dierberg and JiaMin L. Dierberg, as trustees, all of St. Louis, Missouri;* to join the Dierberg Family Control Group, a group acting in concert, to acquire voting shares of FB Corporation, and thereby indirectly acquire voting shares of The San Francisco Company and First Bank, all of Creve Coeur, Missouri.

Board of Governors of the Federal Reserve System.

Michele Taylor Fennell,

Associate Secretary of the Board.

BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-26-1175; Docket No. CDC-2026-0662]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Environmental Public Health Tracking Network (Tracking Network). The Tracking Network involves ongoing collection, integration, analysis, and dissemination of health, exposure, and hazard data designed to drive public health actions that protect the population from harm resulting from exposure to environmental contaminants.

DATES: CDC must receive written comments on or before June 22, 2026.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2026-0662 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of

previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

Environmental Public Health Tracking Network (Tracking Network) (OMB Control No. 0920–1175, Exp. 8/31/2026)—Extension—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The CDC is submitting a 3-year Paperwork Reduction Act (PRA) Extension information collection request (ICR) for Environmental Public Health Tracking Network (Tracking Network) (OMB Control No. 0920–1175, Exp. 8/31/2026). This ICR is sponsored by the Environmental Public Health Tracking Branch (Tracking Branch), Division of Environmental Health Science and Practice (DEHSP), National Center for Environmental Health (NCEH) at CDC.

In September 2000, the Pew Environmental Health Commission issued a report entitled *America's Environmental Health Gap: Why the Country Needs a Nationwide Health Tracking Network*. The Commission documented a critical gap in “knowledge that hinders our national

efforts to reduce or eliminate diseases that might be prevented by better managing environmental factors” due largely to the fact that existing environmental health systems were inadequate and fragmented. They described a lack of data for the leading causes of mortality and morbidity, a lack of data on exposure to hazards, a lack of environmental data with applicability to public health, and barriers to integrating and linking existing data. To address this critical gap, the Commission recommended a “Nationwide Health Tracking Network” for disease and exposures. In response to the report and this critical gap, Congress appropriated funds in the fiscal year 2002 budget for the CDC to establish the National Environmental Public Health Tracking Program (Tracking Program) and Tracking Network and has appropriated funds each year thereafter to continue this effort.

The Tracking Program includes SLHD and other partners which collaborate to: (1) build and maintain the Tracking Network; (2) advance the practice and science of environmental public health tracking; (3) communicate information to guide environmental health policies and actions; (4) enhance tracking workforce and infrastructure; and (5) foster collaborations between health and environmental programs.

In spring of 2022, under Notice of Funding Opportunity CDC–RFA–EH22–2202, the CDC's Tracking Program funded 33 state and local public health programs (funded SLHDs). These recipients were selected through a competitive objective review process and are managed as CDC cooperative agreements. Awards are for five years and are renewed through an Annual Performance Report (APR)/Continuation Application. The Tracking Program collects data from recipients about their activities and progress for the purposes of program evaluation and monitoring (hereafter referenced as program data). The Tracking Program also collects data from radon testing labs to integrate into the Tracking Network.

Environmental public health tracking is the ongoing collection, integration, analysis, and dissemination of health, exposure, and hazard data (hereinafter referenced as Tracking Network data) to inform public health actions that protect the population from harm resulting from exposure to environmental contaminants. The Tracking Network

provides data from existing health, exposure, and hazard surveillance systems and supports ongoing efforts within the public health and environmental sectors to improve data collection, accessibility, and dissemination as well as analytic and response capacity. Data that were previously collected for different purposes and stored in separate state and local systems are now available in a nationally standardized format allowing programs to begin bridging the gap between health and the environment.

CDC is requesting approval for an Extension of the previously approved ICR. This request has an increase in the number of annual respondents, from 37 to 47, with a decrease in overall responses (599 to 522) and overall burden hours (14,041 to 12,348). In spring of 2022, under the new 5-year NOFO No. CDC–RFA–EH22–2202, CDC's Tracking Program funded 33 state and local public health programs (funded SLHD). The approval number reflects the current 33 SLHD respondents plus four to allow for future funding of new SLHD or to collect voluntary responses from unfunded SLHD as well as radon testing labs.

Data from recipients or other SLHD are submitted annually following standardized procedures. Tracking Network data submitted annually by recipients and other SLHD to the Tracking Program include six datasets and the metadata form, specifically (1) birth defects prevalence, (2) drinking water monitoring, (3) emergency department visits, (4) hospitalizations, (5) radon testing for SLHD and radon labs, (6) biomonitoring, and (7) metadata. The Tracking Program uses Research Electronic Data Capture (REDCap) for its Electronic Data Capture System (EDCS) needs, which is an easy-to-use, free software tool useful for programmatic deliverable management and data capture. Using an EDCS significantly reduces the burden by optimizing the data capture method to eliminate the need for personnel to complete manual data cleaning and organization before using data for analysis and evaluation upon submission.

Based on the above changes, we are requesting to decrease the annualized number of responses from 599 to 522 and the annualized time burden from 14,041 to 12,348 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
State and local health department (SLHD).	Birth Defects Prevalence Form	30	1	40	1,200
	Drinking Water Monitoring Form	37	1	50	1,850
	Emergency Department Visits Form	37	1	40	1,480
	Hospitalizations Form	37	1	40	1,480
	Radon Testing Form (combined form).	25	1	50	1,250
	Biomonitoring Form	8	1	40	320
	Metadata Records	37	2	20	1,480
	Environmental Public Health Tracking Work Plan—REDCap.	33	1	21	693
	Program Accomplishments and Public Health Actions Report—REDCap.	33	2	20	1,320
	Performance Measures Report—REDCap.	33	1	20	660
	PHA Impact Follow-up—REDCap ...	33	2	15/60	16
	Communications Plan Template	33	1	2	66
	Web Stats Template	33	1	1	33
	Radon Testing Labs	Radon Testing Form (combined form).	10	1	50
Total					12,348

BILLING CODE 4163-18-P

**DEPARTMENT OF HEALTH AND
 HUMAN SERVICES**

**Centers for Disease Control and
 Prevention**

[60Day-26-0314; Docket No. CDC-2026-0661]

**Proposed Data Collection Submitted
 for Public Comment and
 Recommendations**

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled The National Survey of Family Growth (NSFG). This survey is designed to provide nationally

representative, scientifically credible data on factors related to birth and pregnancy rates, family formation and dissolution patterns, and reproductive health.

DATES: CDC must receive written comments on or before June 22, 2026.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2026-0661 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the
