

for—“(1) Resale in their entirety or as spare parts; or (2) Rebuilding, restoration, or crushing.” Reporting entities can determine whether a vehicle is junk or salvage by referring to the definitions provided in the NMVTIS regulations at 28 CFR 25.52. An NMVTIS Reporting Entity is required to report specific information to NMVTIS within one month of receiving such a vehicle, and failure to report may result in assessment of a civil penalty of \$1,000 per violation.

5. *Obligation to Respond:* An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: There are 50,383 in JSI (meaning entities issued a reporting ID number), of which 21,612 have submitted at least one report. The estimate for the average amount of time for each business to report varies: 30–60 minutes (estimated). The states and insurance companies already are capturing most of the data needed to be reported, and the reporting consists of electronic, batch uploaded information. So, for those automated companies the reporting time is negligible. For smaller junk and salvage yard operators who would enter the data manually, it is estimated that it will take respondents an average of 30–60 minutes per month to respond.

6. *Total Estimated Number of Respondents:* 50,383.

7. *Estimated Time per Respondent:* 30–60 minutes.

8. *Frequency:* Once.

9. *Total Estimated Annual Time Burden:* 259,00 hours.

Total Annual Reporting Burden:

21,612 × 30 minutes per month (12 times per year) = 648,360

21,612 × 60 minutes per month (12 times per year) = 1,296,720

10. *Total Estimated Annual Other Costs Burden:*
