### V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a 111(d) plan submission that complies with the provisions of the CAA and applicable Federal regulations. In reviewing 111(d) plan submissions, EPA's role is to approve State choices, provided they meet the criteria and objectives of the CAA and EPA's implementing regulations. Accordingly, this action merely proposes to approve State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA.

In addition, the Kentucky MSW Landfill State Plan is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

### Improving Customer Service and Protecting Consumers Through Onshoring

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** In this document, the Federal Communications Commission (Commission) proposes actions that would encourage and facilitate the onshoring of foreign call centers. Specifically, the Commission proposes rules and otherwise explore ways to improve customer service communications and better protect consumers’ sensitive personal information by limiting use of foreign call centers and by improving standards applicable to a company’s remaining foreign call center operations. It also seeks comment on extending these

protections to modes of customer service communications other than calls, such as emails, texts, and on-line chats, and on ideas to deter scam and other unlawful calls made to the United States from foreign countries. Finally, it explore steps we can take to financially deter unlawful foreign-originated calls, such as bond requirements. The Commission proposes to apply these requirements to providers of telecommunications services, CMRS, interconnected VoIP service, cable television service, and DBS services, or affiliates of such providers. It also proposes to apply these requirements to the use of foreign call centers for consumer communications relating to internet access service offered by any of the foregoing providers or their affiliates and seeks comment on whether it should extend some or all of the proposed rules to providers of other types of services.

**DATES:** Comments are due on or before May 26, 2026 and reply comments are due on or before June 22, 2026.
