

Interventions

Any person, which includes individuals, organizations, businesses, municipalities, and other entities,⁶ has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. Abstract: EPA procures contract support to facilitate the performance of certain duties. EPA may require contractors to handle Toxic Substances Control Act (TSCA) Confidential Business Information (CBI). Each contractor employee who will use TSCA CBI in the performance of his or her

duties must be authorized for access to TSCA CBI through a multi-step process. The TSCA CBI Protection Manual (EPA Publication 7700 A2, revised October 2003) provides Federal and contractor employees with guidelines and operating procedures for handling TSCA CBI while performing their official duties, as well as the procedures to obtain authorization for access to TSCA CBI.

Specifically, for purposes of this information collection, contractor personnel must submit to EPA the EPA form titled "TSCA CBI Access Request, Agreement, and Approval" (EPA Form 7740-6). The Office of Pollution Prevention and Toxics (OPPT), uses EPA Form 7740-6 to collect information about contractor personnel so that the Agency can evaluate their suitability for access to TSCA CBI. EPA stores the information on the OPPT Chemical Information System (CIS).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form Numbers: 7740-6.

Respondents/affected entities: Entities potentially affected by this ICR include North American Industrial Classification System (NAICS) codes 514 Information Services and 561 Administrative and Support Services.

Respondent's obligation to respond: Mandatory, per TSCA section 14 (15 U.S.C. 2613).

Estimated number of respondents: 288 (total).

Frequency of response: On occasion.

Total estimated burden: 461 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$25,220 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 120 hours in the total estimated respondent burden compared with that identified in ICR currently approved by OMB. This increase reflects the increase in the number of contractors requesting CBI access from 214 to 288. This change is an adjustment.

Courtney Kerwin,

Deputy Director, Data & Enterprise Programs Division.
