Abstract of Information Available

Human remains representing at least two individuals have been identified. No associated funerary objects are present.

Human remains that represent two MNI were removed from the valley of the Salt River near Mesa in Maricopa County, AZ by E.H. Murdock. In 2003, these remains were discovered on the front steps of Morrill Hall when staff opened the museum. With the remains was found two labels that said, "These items found while emptying house" and "Prehistoric Hohokam Culture bones. Age 8-to-15 centuries. Grave between 3½ and 4 feet deep. Evacuated by E.H. Murdock, Phoenix". The bone pieces were wired into five picture frames with no glass. The two MNI consist of two adult individuals of unknown sex. The human remains include: one mandible, two patella's, three fibulas, one sternum, 17 vertebrae, 65 hand elements, 21-foot elements, three ribs, one sacrum. There were no associated funerary objects found with the bones.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.
