SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we invite the public and other Federal agencies to comment on new, proposed, revised and continuing collections of information. This helps the BLM assess impacts of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on September 6, 2024 (89 FR 72888). The BLM received one comment in response to this notice. The comment, along with the BLM's response, is summarized and included in the ICR submitted to the Office of Management and Budget (OMB).

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on the proposed ICR described below. The BLM is especially interested in public comment addressing the following:

(1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency could minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of

public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

Abstract: The BLM request that OMB reinstate with changes OMB Control Number 1004–0182 which was inadvertently allowed to expire in September 2004. The BLM collects certain information from Alaska Natives interested in reindeer grazing activities on public lands that BLM administers in the State of Alaska. This information allows BLM to determine the compatibility of reindeer grazing on public lands with resource management guidelines developed in land use plans and multiple-use objectives described in 43 CFR part 4300.

The changes to this OMB Control Number include discontinuing the form AK 4132–1, *Reindeer Permit Application*, because that form lacks utility and incorporating the following information collections that were not previously accounted for under this OMB control number:

- Reindeer Grazing Permit Annual Report (43 CFR 4300.45);
- Assign permit to another party (43 CFR 4300.59 and 4300.60); and
- Permit to cross reindeer over public lands (43 CFR 4300.80).

The BLM requests OMB reinstate OMB Control Number 1004–0182 with the above changes.

Title of Collection: Alaska Reindeer Grazing Requirements (43 CFR part 4300).

OMB Control Number: 1004–0182.

Form Numbers: AK 4201–1, *Grazing Lease or Permit Application* (OMB No. 1004–0182) and Form 4120–7, *Application for Range Improvement Permit* (OMB No. 1004–0019).

Type of Review: Reinstatement with change of a previously approved collection.

Respondents/Affected Public: Alaska Natives interested in reindeer grazing activities on public lands that BLM administers in the State of Alaska.

Total Estimated Number of Annual Respondents: 6.

Total Estimated Number of Annual Responses: 14.

Estimated Completion Time per Response: Varies from 1 hour to 30 minutes depending on activity.

Total Estimated Number of Annual Burden Hours: 11.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion and annual.

Total Estimated Annual Non-hour Burden Cost: \$12.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

Darrin A. King,

Information Collection Clearance Officer.

DEPARTMENT OF JUSTICE

[OMB Number 1121–0NEW]

Agency Information Collection

Activities: Proposed New Information Collection Activity; Comment Request: Proposed Study Entitled “Pilot Study Examining Interpersonal Violence Experienced by Young Adults”

AGENCY: National Institute of Justice, U.S. Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Department of Justice (DOJ), Office of Justice Programs, National Institute of Justice, is submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: The Department of Justice encourages public comment and will accept input until May 27, 2026.

FOR FURTHER INFORMATION CONTACT: If you have additional comments, especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Erica Howell, Social Science Research Analyst, Office on Violence and Victimization Prevention, by email at erica.howell@usdoj.gov or telephone at (202) 598–9431.

SUPPLEMENTARY INFORMATION: The proposed information collection was previously published in the **Federal Register** on October 28, 2024, 89 FR 85557, allowing a 60-day comment period. Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the National Institute of Justice, including whether the information will have practical utility.
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Evaluate whether and, if so, how the quality, utility, and clarity of the information to be collected can be enhanced.
- Minimize the burden of collecting information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

1. Type of Information Collection: New collection.
2. The Title of the Form/Collection: “National Survey of Young Adults.”
3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: The applicable component within the U.S. Department of Justice is the National Institute of Justice.
4. Affected public who will be asked or required to respond, as well as a brief abstract:

In fiscal year (FY) 2023, the National Institute of Justice (NIJ) awarded Westat, a professional research services organization, along with their partners at New York University and the University of Cincinnati, to implement the “Pilot Study Examining Interpersonal Violence Experienced By Young Adults” (January 1, 2024–June 30, 2027).

The Pilot Study Examining Interpersonal Violence Experienced By Young Adults will recruit a national probability sample of approximately 5,000 young adults with a goal of having a total of 150–300 individuals who respond to the survey. The survey will be administered in the summer of the recruitment year, 2026, and respondents must have either graduated from high school or be no longer in high school. Respondents must be at least 18 years old to be eligible for recruitment.

The goals of this study are to pilot test a survey instrument and recruitment methods to examine interpersonal violence (IV) among college-aged persons (ages 18–24) in order to better understand the risks for, experiences with, and consequences of IV among young adults. Of particular interest are the differences between the victimization and perpetration of those who do and do not attend college. The survey will be designed to examine a range of IV committed by partners, family members, acquaintances, and strangers, including nonconsensual sexual contact, intimate partner violence, and stalking. At a stage of the lifespan when we are most vulnerable to interpersonal violence this study could address gaps in knowledge about the experiences of young adults not engaged in post-secondary education and the differences in experiences between groups.

5. An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The pilot study’s estimated range of burden for respondents is expected to be between 8 and 14 minutes for completion. Based on instrument testing results, an average of 12 minutes per respondent is expected to be spent. The following factors were considered when creating the burden estimate: The estimated total number of respondents. NIJ estimates that approximately 168 respondents will fully complete the questionnaire, yielding a modified response rate of 55%.

6. An estimate of the total public burden associated with the pilot data collection: The estimated public burden associated with this collection is 567 hours, which includes the time it takes
