*Title of Collection:* Common Core of Data (CCD) School-Level Finance Survey (SLFS) 2025–2027.

*OMB Control Number:* 1850–0930.

*Type of Review:* An extension without change of a currently approved ICR.

*Respondents/Affected Public:* State, Local, and Tribal Governments.

*Total Estimated Number of Annual Responses:* 325.

*Total Estimated Number of Annual Burden Hours:* 6,535.

*Abstract:* The School-Level Finance Survey (SLFS) is an annual collection of school-level finance data published in the National Center for Education Statistics (NCES) Common Core of Data (CCD). The U.S. Census Bureau (Census), Economic Reimbursable Surveys Division, administers the SLFS data collection for NCES under interagency agreement in conjunction with the National Public Education Financial Survey (NPEFS) (OMB #1850–0067) and the Local Education Agency (School District) Finance Survey (F–33) (OMB #0607–0700). SLFS is a comprehensive source of school-level finance data for public education collected on a nationwide scale using uniform definitions, concepts, and procedures. The collection includes the salaries, benefits, and total current expenditures broken out by activity (function) for all publicly funded schools serving students in prekindergarten through 12th grade. In this notice, NCES is announcing its intention to extend the date of clearance for SLFS, without change, to the currently approved collection. Detailed information about the collection can be found at [https://www.reginfo.gov/public/do/PRAViewICR?ref\\_nbr=202307-1850-003](https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202307-1850-003).

Data will be collected from State Education Agencies (SEAs) for all 50 states and the District of Columbia. SEAs appoint state fiscal coordinators to work with NCES and the U.S. Census Bureau to provide accurate and comparable data across states and

jurisdictions. SEAs typically collect finance data from school districts for their own uses. Many states produce a state-specific chart of accounts or accounting manual to assist school districts in classifying and reporting finance data and producing government-wide financial statements. Uniform definitions and concepts of revenues and expenditures are defined by the NCES handbook *Financial Accounting for Local and State School Systems*.

Data on school-level spending patterns is helpful for parents to make choices for the education of their child. Uniform and comparable data helps states measure the effectiveness of resource allocation. Collecting this data at the national level addresses the need for reliable and unbiased measures that can be utilized to compare how resources are distributed among schools within local districts. Education finance statistics provided by this collection allow for comparisons of how public elementary-secondary schools are spending their funds.

#### **Prior Public Comments on This Proposed Action**

A 60-day notice was published in the **Federal Register** on July 18, 2025 (90 FR 33933). Three comments were received. None prompted NCES to change the proposed collection. Individual comments and NCES's response can be found in Section A.8 of Supporting Statement Part A. This and other documentation can be found on [www.reginfo.gov](http://www.reginfo.gov).

**Ampersand Gilman Hydro LP; Notice of Availability of Environmental Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license to continue to operate and maintain the Gilman Hydroelectric Project No. 2392. The existing 4.95-megawatt (MW) project is located on the Connecticut River and straddles the Village of Gilman, within the Town of Lunenburg,

Essex County, Vermont, and the Town of Dalton, Coos County, New Hampshire. The project does not occupy any federal lands. Commission staff has prepared an Environmental Assessment (EA) for the project.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link.
