Under this generic clearance, information is meant to inform ACF activities and may be incorporated into documents or presentations that are made public such as through conference presentations, websites, or social media. The following are some examples of ways in which we may share information resulting from these data collections: Technical assistance (TA) plans, webinars, presentations, infographics, issue briefs/reports, project specific reports, or other documents relevant to the field, such as

federal leadership and staff, grantees, local implementing agencies, researchers, and/or training/TA providers. We may also request information for the sole purpose of publication in cases where we are working to create a single source for users (clients, programs, researchers) to find information about resources such as services in their area, TA materials, different types of programs or systems available, or research using ACF data. In sharing findings, we will describe the study methods and limitations regarding generalizability and as a basis for policy.

Following standard OMB requirements, OPRE will submit an individual request for each specific data collection activity under this generic clearance. Each request will include the

individual instrument(s), a justification specific to the individual information collection, and any supplementary documents.

*Respondents:* Current, former, or potential participants in programs serving youth; and young adults with foster care experience.

**Annual Burden Estimates**

This request will reduce the scope of the previously approved generic to only focus on two types of information collections. This request is for 3 years of approval and burden estimates are calculated to show the total burden over the 3-year period and an average annual burden estimate based on that calculation.

Instrument	Total number of respondents	Total number of responses per respondent	Average burden hours per response	Total burden hours	Annual burden hours
Youth Discussions and Focus Groups .....	200	2	1.5	600	200

**SUPPLEMENTARY INFORMATION:**

*Description:* To receive child support funding under 45 CFR part 309, tribes and tribal organizations must submit the financial forms described in 45 CFR 309.130(b) and other forms as the Secretary may designate, due no later than August 1 annually. This optional template is designed for tribes operating an approved tribal child support program to use in preparing their annual budget and narrative justification estimates in accordance with the tribal child support enforcement regulations. The optional Tribal Budget and Narrative Justification Template helps improve efficiency and establish uniformity and consistency in the annual budget submission and review process. Tribes may use the Excel template or their own format to submit the required financial information. OCSE has made minor revisions to the Excel template by updating citations and hyperlinks from 45 CFR part 75 to 2 CFR part 200. Other changes include edits to examples in the Excel sample budget to reflect the adoption of 2 CFR part 200 and updated formula errors in

the Excel document. OCSE proposes to discontinue the Word template since it is not used.

*Respondents:* Tribes and tribal organizations administering a tribal

child support program under title IV–D of the Social Security Act.

**Annual Burden Estimates**

Burden estimates are for all tribes to provide budget information, as required, using either the ACF provided template or their own format.
