

On a case-by-case basis, NMFS may issue a one-time, 1-year renewal IHA following notice to the public providing an additional 15 days for public comments when (1) up to another year of identical or nearly identical activities as described in the Description of Proposed Activity section of this notice is planned, or (2) the activities as described in the Description of Proposed Activity section of this notice would not be completed by the time the IHA expires and a renewal would allow for completion of the activities beyond that described in the *Dates and Duration* section of this notice, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to the needed renewal IHA effective date (recognizing that the renewal IHA expiration date cannot extend beyond 1 year from the expiration of the initial IHA).

- The request for renewal must include the following:

(1) An explanation that the activities to be conducted under the requested renewal IHA are identical to the activities analyzed under the initial IHA, are a subset of the activities, or include changes so minor (*e.g.*, reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take).

(2) A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized.

- Upon review of the request for renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

Needs and Uses: Headquarters Air Force Junior Reserve Officer Training Corps (AFJROTC) requires this information collection to analyze the effectiveness of its federally funded Title 10 civic development program, which operates in approximately 850 high schools worldwide. The collection is necessary to assess the program’s success in meeting its core objectives: educating and training students in citizenship and life skills, promoting community service, and developing character and self-discipline.

Furthermore, this survey is a mandatory requirement for maintaining the program’s accreditation with Cognia. Accreditation standards require stakeholder feedback for longitudinal data analysis to substantiate program effectiveness and demonstrate continuous improvement.

The information is used by AFJROTC senior leadership to guide strategic program decisions and inform enterprise-level changes. The aggregated results and findings validate the program’s impact and are used to demonstrate its value to Major Command, Headquarters Air Force, and the Office of the Secretary of War.
