**Abstract:** NPS policy requires that research studies and specimen collection conducted by researchers, other than NPS employees on official duty, require an NPS scientific research and collecting permit. The permitting process adheres to regulations codified in 36 CFR 2.1 which prohibit the disturbing, removing, or possessing of natural, cultural, and archeological resources. Additionally, regulations codified in 36 CFR 2.5 govern the collection of specimens in parks for the purpose of research, baseline inventories, monitoring, impact analysis, group study, or museum display.

As required by these regulations, a permitting system is managed for scientific research and collecting. NPS forms 10-741a, *Application for a Scientific Research and Collecting Permit* and 10-741b, *Application for a Science Education Permit*, are used to collect information from persons seeking a permit to conduct natural or social science research and collection activities in individual units of the National Park System. Individuals who receive a permit must report on the activities conducted under the permit using form 10-226 *Investigator’s Annual Report*; 10-741C *Field Work Check-in Report*, and Form 10-741D *Field Work Check-out Report*.

The information in this collection is used to manage the use and preservation of park resources, and to report on the status of permitted research and collecting activities. We encourage respondents to use RPRS to complete and submit applications and reports. Additional information about existing applications, reporting forms, guidance and explanatory material can be found on the RPRS website (<https://irma.nps.gov/RPRS/>).

**Title of Collection:** Research Permit and Reporting System Applications and Reports, 36 CFR 2.1 and 2.5.

**OMB Control Number:** 1024-0236.

**Form Number:** NPS Forms 10-226, 10-741A, 10-741B, 10-741C, and 10-741D.

**Type of Review:** Extension of a currently approved collection.

**Respondents/Affected Public:** Individuals; businesses; academic and research institutions; and Federal, State, local, and tribal governments.

**Total Estimated Number of Annual Responses:** 8,590.

**Estimated Completion Time per Response:** Varies. From 10 minutes to 90 minutes, depending on activity.

**Total Estimated Number of Annual Burden Hours:** 6,884.

**Respondent’s Obligation:** Required to obtain or retain a benefit.

**Frequency of Collection:** On occasion for applications; annually for reports.

**Total Estimated Annual Non hour Burden Cost:** None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
