

and ODP as amended in the transmittal. For safety and timeliness of change considerations, this amendment incorporates only specific changes contained for each SIAP and Takeoff Minimums and ODP as modified by FDC permanent NOTAMs.

The SIAPs and Takeoff Minimums and ODPs, as modified by FDC permanent NOTAM, and contained in this amendment are based on criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these changes to SIAPs and Takeoff Minimums and ODPs, the TERPS criteria were applied only to specific conditions existing at the affected airports. All SIAP amendments in this rule have been previously issued by the FAA in a FDC NOTAM as an emergency action of immediate flight safety relating directly to published aeronautical charts.

The circumstances that created the need for these SIAP and Takeoff Minimums and ODP amendments require making them effective in less than 30 days.

Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPs, and safety in air commerce, I find that notice and public procedure under 5 U.S.C. 553(b) are impracticable and contrary to the public interest and, where applicable, under 5 U.S.C. 553(d), good

cause exists for making these SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 97**

Air Traffic Control, Airports, Incorporation by reference, Navigation (Air).

Issued in Washington, DC April 24, 2026.

**Gary W. Petty,**

*Manager (Acting), Standards Section, Flight Procedures and Airspace Group, Flight Technologies & Procedures Division, Federal Aviation Administration.*

*Adoption of the Amendment*

Accordingly, pursuant to the authority delegated to me, 14 CFR part

97 is amended by amending Standard Instrument Approach Procedures and Takeoff Minimums and ODPs, effective at 0901 UTC on the dates specified, as follows:

**PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES**

■ 1. The authority citation for part 97 continues to read as follows:

**Authority:** 49 U.S.C. 106(f), 106(g), 40103, 40106, 40113, 40114, 40120, 44502, 44514, 44701, 44719, 44721–44722.

■ 2. Part 97 is amended to read as follows:

By amending: § 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, Identified as follows:

RIN 2506–AC50

**HOME Investment Partnerships Program: Further Program Updates and Streamlining**

**AGENCY:** Office of the Secretary, U.S. Department of Housing and Urban Development (HUD).

**ACTION:** Delay of effective date.

**SUMMARY:** This publication announces that HUD is delaying the effective date of HUD’s January 6, 2025, final rule for all provisions not currently in effect, until the publication of an additional final rule.

**DATES:** As of April 29, 2026, the effective date for amendatory instruction 3 (revising 24 CFR 92.250) of the rule published at 90 FR 16085, April 17, 2025, which was delayed at 90 FR 48443 (October 22, 2025), is delayed indefinitely. As of April 29, 2026, amendatory instruction 27 (revising 24 CFR 92.253) published at 90 FR 746 (January 6, 2025), which was delayed at 90 FR 8780 (February 3, 2025) and subsequently delayed at 90 FR 16085 (April 17, 2025) and 90 FR 48443 (October 22, 2025), is delayed indefinitely.

**FOR FURTHER INFORMATION CONTACT:** Henrietta Owusu, Director, Program Policy Division, Office of Affordable Housing Programs, Office of Community Planning and Development, U.S. Department of Housing and Urban Development, 2415 Eisenhower Ave., Alexandria, VA 22314; telephone number (202) 708–2684 (this is not a toll-free number). HUD welcomes and is

prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities. To learn more about how to make an accessible telephone call, visit <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

On January 6, 2025, HUD published the HOME Investment Partnerships Program: Program Updates and Streamlining final rule (HOME Final Rule) in the **Federal Register**, available at 90 FR 746. The HOME Final Rule incorporated a majority of the proposed regulatory changes described in the HOME Proposed Rule. The HOME Final Rule provided for the rule to take effect on February 5, 2025.

On January 20, 2025, the President issued a memorandum entitled “Regulatory Freeze Pending Review” (Regulatory Freeze Pending Review

Memorandum) to executive departments and agencies.<sup>1</sup> The Regulatory Freeze Pending Review Memorandum, among other things, asks executive departments and agencies to consider postponing the effective date of rules that had been published in the **Federal Register** but had not yet taken effect. The postponement allowed executive departments and agencies time to review any questions of fact, law, and policy that the rules may raise.

On February 3, 2025, consistent with the Regulatory Freeze Pending Review Memorandum, HUD delayed the effective date of the HOME Final Rule from February 5, 2025, until April 20, 2025.<sup>2</sup> HUD's delay of the effective date of the HOME Final Rule until April 20, 2025, provided HUD with time to review the HOME Final Rule for any questions of fact, law, and policy that arose in the HOME Final Rule, as directed by the Regulatory Freeze Pending Review Memorandum.

On April 17, 2025, HUD published the HOME Investment Partnerships Program Updates and Streamlining—Delay of Effective Date, Withdrawal, and Correction (Delay of Effective Date for Certain Provisions of the HOME Final Rule Notice).<sup>3</sup> The Delay of Effective Date for Certain Provisions of the HOME Final Rule Notice further delayed the effective date for the HOME Final Rule's addition of 24 CFR 92.250(c) and revisions to 24 CFR 92.253 until October 30, 2025, while allowing a majority of the HOME Final Rule to go into effect as of April 20, 2025. The Delay of Effective Date for Certain Provisions of the HOME Final Rule Notice also made certain technical revisions to the effective and compliance dates in 24 CFR 92.3 of the HOME Final Rule. The effective date was further delayed to April 30, 2026 (90 FR 48443).

## II. Indefinite Delay of Effective Date

HUD now indefinitely delays the effective date for all provisions of the final rule not yet in effect. This includes the change to § 92.250 in 90 FR 16085 regarding green building standards and the change to § 92.253 in 90 FR 746 regarding tenant protections and selection. HUD is indefinitely delaying these amendments so it can take additional comment on these changes. HUD will, imminently, publish a proposed rule. In a final rule, after consideration of comments on the proposed rule, HUD will make a final

determination on the these delayed provisions.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 63

[EPA–R07–OAR–2026–0497; FRL–13206–02–R7]

### Approval of Missouri's Request for Partial Program Delegation of Clean Air Act 112(r) Prevention of Accidental Release Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking final action to approve the Missouri Department of Natural Resource's (MoDNR's) request for delegation of a partial Clean Air Act (CAA) Risk Management Program (RMP) for agricultural anhydrous ammonia facilities in the State of Missouri. The EPA retains authority for any anhydrous ammonia that does not meet the definition of agricultural anhydrous ammonia at these facilities, the RMP for all other regulated chemicals that may be present at these facilities, and for the RMP generally in Missouri for all other facilities.

**DATES:** This final rule is effective on May 29, 2026. The incorporation by reference of certain material listed in this rule is approved by the Director of the Federal Register as of May 29, 2026.

**ADDRESSES:** The EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2026–0497. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through <https://www.regulations.gov>.

**FOR FURTHER INFORMATION CONTACT:** Christina Gallick, Chemical Accident Prevention Section, U.S. Environmental Protection Agency, Region 7, 11201 Renner Blvd., Lenexa, Kansas 66219,

## I. Background

On October 6, 9, and 27, 2025, the MoDNR, on behalf of the State of Missouri, submitted a request for partial delegation of the RMP for facilities with an anhydrous ammonia storage capacity of ten thousand pounds or more that is intended to be used as fertilizer or in the manufacturing of a fertilizer (“agricultural anhydrous ammonia facilities”), as defined in state regulation at 10 Code of State Regulations (CSR) 10–6.255(2)(B). Included within this request for partial delegation are regulations under Missouri CSR Division 10 Air Conservation Commission, Chapter 6 Air Quality Standards, Definitions, Sampling and Reference Methods and Air Pollution Control Regulations for the Entire State of Missouri, section 255, Chemical Accident Prevention for Agricultural Anhydrous Ammonia (10 CSR 10–6.255), effective February 28, 2025.

The EPA proposed to approve Missouri's request for delegation of authority to implement and enforce a partial RMP for agricultural anhydrous ammonia facilities on February 26, 2026 (91 FR 9523). Specifically, the EPA proposed to approve the request as satisfying the relevant criteria of 40 CFR

<sup>1</sup> Available at 90 FR 8249 (Jan. 28, 2025).
