SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of an existing information collection.

The Wage Mariner Hiring Portal (WMHP) is an internet-based system (website) that is designed to allow an applicant to apply for a "wage mariner"

position within the National Oceanic and Atmospheric Administration (NOAA) fleet of maritime vessels. The WMHP system collects basic user information, wage mariner licensing, certifications, and relevant current and or past work history. The Department of Commerce (DOC), through NOAA, Office of Marine and Aviation Operations (OMAO) has special hiring authority under Code of Federal Regulations (CFR), Title 5, Chapter 1, Subchapter A, Part 3, § 3.2 and under the DOC Department Administrative Order (DAO) 202-302 Section 2, Subsection .02a. specific to the hiring of federal wage mariner employees. The regulations allow OMAO to hire wage mariners into excepted service positions within the NOAA fleet of ocean-going vessels in order to maintain adequate operations, maintenance, and safe staffing of the maritime ships.

No physical forms are used in this collection, it is all online. Applicants fill out basic personal, licensure, and work history information into a profile resume. Once their basic profile is complete, applicants can submit this resume to available wage mariner positions as shown on the WMHP website. The application information received is used to determine if the applicant meets the basic job qualification. The applicant's information is then passed on to the hiring official or it is placed in a pool of prospective candidates for future openings. Application information includes: first and last name, contact number and email address, wage mariner licenses and certifications, relevant work history.

Information will be collected electronically (internet) through an online web-based interactive system.

BILLING CODE 3510-12-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Highly Migratory Species Tournament Registration and Reporting

The Department of Commerce will submit the following information

collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 19, 2025, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Highly Migratory Species Tournament Registration and Reporting.

OMB Control Number: 0648–0323.

Form Number(s): None.

Type of Request: Regular submission (revision and extension of a current information collection).

Number of Respondents: 300.

Average Hours per Response:

Tournament registration, 2 minutes; tournament summary report, 20 minutes.

Total Annual Burden Hours: 110 hours.

Needs and Uses: This request is for the revision and extension of a currently approved information collection. Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), NOAA's National Marine Fisheries Service (NMFS) is responsible for management of the nation's marine fisheries. Existing regulations require operators of tournaments involving Atlantic highly migratory species (HMS; Atlantic swordfish, sharks, billfish, and tunas) to register four weeks in advance of the tournament. Operators must provide contact information and the tournament's date(s), location(s), and target species. If selected by NMFS, operators are required to submit an HMS tournament summary report within seven days after tournament fishing has ended. Most of the catch data in the summary report is routinely collected in the course of regular tournament operations. NMFS uses the data to estimate the total annual catch of HMS and the impact of tournament operations in relation to other types of fishing activities. In addition, HMS tournament registration provides a method for tournament operators to request educational and regulatory outreach materials from NMFS. NMFS is implementing several modifications to the tournament registration and

reporting forms, including: (1) updating the target species list in the tournament registration form, (2) reporting vessel effort by state residency status (in-state vs. out-of-state participants), (3) reporting of bluefin tuna catch by size class, (4) clarifying the species for which tournament operators are required to report individual lengths and weights in their post-tournament catch reports, and (5) adding questions regarding the depredation of tournament catch by sharks, other fish, or marine animals.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions.

Frequency: Annually; on occasion.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*)
