

before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Cate O'Keefe, Executive Director, at 978-465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 30, 2026.

Anna Michelle Harrison,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Antarctic Marine Living Resources Conservation and Management Measures

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed

information collection must be received on or before July 6, 2026.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648-0194 to the subject line of your comments. All comments received are part of the public record and will generally be posted on <https://www.regulations.gov> without change. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Lauren Fields, Office of International Affairs, Trade, and Commerce, 1315 East-West Hwy, Silver Spring, MD 20910; (301) 427-8379, lauren.fields@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Office of International Affairs, Trade, and Commerce of the National Marine Fisheries Service requests renewal of an existing information collection.

The 1982 Convention on the Conservation of Antarctic Marine Living Resources (the Convention) established the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) for the purpose of protecting and conserving the marine living resources in the waters surrounding Antarctica. The Convention is based upon an ecosystem approach to the conservation of marine living resources and incorporates standards designed to ensure the conservation of individual populations and species and the Antarctic marine ecosystem.

The United States (U.S.) is a Contracting Party to the Convention and a member of CCAMLR and the Scientific Committee established by the Convention.

On November 8, 1984, the President signed Public Law 98-623, the Antarctic Marine Living Resources Convention Act (AMLRCA, or the Act). The Act directs and authorizes the U.S. to take actions necessary to meet its treaty obligations as a Contracting Party to the Convention. The regulations implementing AMLRCA are at 50 CFR part 300, subpart G. The record keeping and reporting requirements at 50 CFR part 300 form the basis for this collection of information. This collection of information concerns CCAMLR Ecosystem Monitoring Program (CEMP) activities, scientific research in the Convention Area, U.S.

vessel permit applicants and/or harvesting vessel operators, and U.S. importers, exporters, and re-exporters of Antarctic marine living resources (AMLR).

U.S. regulations require U.S. individuals engaged in AMLR harvesting, transshipping, and importing or entering and/or conducting activities in a CEMP site to apply for and hold a permit for such activities. Individuals involved in certain scientific research in the Convention area are required to report information.

Members of CCAMLR are required to provide, in a manner and at such intervals as may be prescribed, information about harvesting activities, including fishing areas and vessels, so as to enable reliable catch and effort statistics to be compiled.

As part of U.S. obligations to monitor and control the import, export, and re-export of Antarctic marine living resources, NOAA requires dealers to submit applications for pre-approval certifications of imports of frozen Patagonian and Antarctic toothfish (also referred to as Chilean sea bass) and applications for re-exports of these species.

The collection is necessary for the U.S. to meet its treaty obligations as a contracting party to the Convention.

II. Method of Collection

On-line or paper applications, electronic reports, satellite-linked vessel monitoring devices, automatic identification system transmission, radio and telephone calls, gear and vessel markings are required from participants and methods of transmittal include internet, satellite, facsimile and mail transmission of forms, reports and information.

III. Data

OMB Control Number: 0648-0194.

Form Number(s): None.

Type of Review: Regular submission [extension of a current information collection].

Affected Public: Individuals; business or other for-profit organizations; not-for-profit institutions.

Estimated Number of Respondents: 79.

Estimated Time per Response: 1 hour to apply for a CEMP research permit; 1 hour to report on research; 28 hours to supply information on potential new or exploratory fishing; 2 hours to apply for a harvesting permit; 2 minutes to transmit information by radio; 4 hours to install a vessel monitoring device (VMS); 2 hours for annual VMS maintenance; 45 minutes to mark a vessel; 40 minutes to mark buoys; 10

hours to mark pot gear; 6 minutes to mark trawl nets; 15 minutes to provide notice of transshipment within the Convention Area; 15 minutes to apply for a permit to be a first receiver of Antarctic marine living resources; 15 minutes to complete and submit a toothfish catch document; 15 minutes to apply for pre-approval of toothfish imports; 15 minutes to complete a fresh toothfish reporting form; 15 minutes to complete and submit re-export catch documents; 15 minutes to submit import tickets.

Estimated Total Annual Burden Hours: 359 hours.

Estimated Total Annual Cost to Public: \$131,143: \$123,000 covers pre-approval import applications at a \$200 fee each; the remaining \$8,000 covers vessel-related equipment installation and gear marking.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Antarctic Marine Living Resources Convention Act, 16 U.S.C. 2431 *et seq.*

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

All comments received are part of the public record and will generally be posted on <https://www.regulations.gov> without change. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Michelle Chow, National Marine Fisheries Service (NMFS), Pacific Islands Regional Office, 1845 Wasp Blvd. 176, Honolulu, HI 96818. Telephone: (808)

725-5011; Email: michelle.chow@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for renewal of an approved information collection. NMFS manages non-commercial fishing activities in the Rose Atoll, Marianas Trench, and Pacific Remote Islands Marine National Monuments under the authority of the Magnuson Stevens Fishery Conservation and Management Act (6 U.S.C. 1801 *et seq.*). Regulations at 50 CFR part 665 require the owner and operator of a vessel used to non-commercially fish for, take, retain, or possess any management unit species in these monuments to hold a valid permit issued by NMFS.

Regulations also require the owner and operator of a vessel that is chartered to fish recreationally for, take, retain, or possess, any management unit species in these monuments to hold a valid permit issued by NMFS. The fishing vessel must be registered to the permit. The charter business must be established legally in the permit area where it will operate. Charter vessel clients are not required to have a permit.

The permit application collects basic information about the permit applicant, type of operation, vessel, and permit area. NMFS uses this information to confirm the identity of the applicant and determine permit eligibility. The information is important for understanding the nature of the fishery and its participants. It also aids in the enforcement of fishing regulations within the monuments.

Regulations also require the vessel operator to report a complete record of catch, effort, and other data on a NMFS log sheet. The vessel operator must record all requested information on the log sheet within 24 hours of the completion of each fishing day. The vessel operator also must sign, date, and submit the form to NMFS within 30 days of the end of each fishing trip. NMFS uses the information provided in the log sheets to monitor fishing activities, evaluate and assess the status of fish stocks, and determine whether changes in management are needed to sustain the productivity of the fishery and conserve marine resources.

II. Method of Collection

Information is collected on paper forms.

III. Data

OMB Control Number: 0648-0664.
Form Number(s): None.
