**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Automated Commercial Environment (ACE) Export Manifest for Air Cargo Test is a voluntary test in which participants agree to submit export manifest data to U.S. Customs and Border Protection (CBP) electronically, at least four hours prior to loading of the cargo onto the aircraft in preparation for departure from the United States. The ACE Export Manifest for Air Cargo Test is authorized under § 101.9(b) of title 19 of the Code of Federal Regulations (19 CFR 101.9(b)), which provides for the testing of National Customs Automation Program (NCAP) programs or procedures.

The ACE Export Manifest for Air Cargo Test examines the functionality regarding the filing of export manifest data for air cargo electronically in ACE. ACE creates a single automated export processing platform for certain export manifest, commodity, licensing, export control, and export targeting transactions. This will reduce costs for CBP, partner government agencies, and the trade community, as well as improve facilitation of export shipments through the supply chain.

The ACE Export Manifest for Air Cargo Test will also assess the feasibility of requiring the manifest information to be filed electronically in ACE within a specified time before the cargo is loaded on the aircraft. This capability will enable CBP to calculate the risk and effectively identify and inspect shipments prior to loading of cargo to ensure compliance with all U.S. export laws.

CBP announced the procedures and criteria related to participation in the ACE Export Manifest for Air Cargo Test in a notice published in the **Federal Register** on July 10, 2015 (80 FR 39790). This test was originally set to run for approximately two years. On August 14, 2017, CBP extended the test period for one additional year (82 FR 37888). At

that time, CBP also modified the original notice to make certain data elements optional and opened the test to accept additional applications for participation for all parties who met the eligibility requirements. The test was renewed on December 22, 2021 (86 FR 72610), and on June 4, 2024 (89 FR 47974). Through this notice, CBP is renewing the test again.

The data elements, unless noted otherwise, are mandatory. Data elements which are "mandatory" must be provided to CBP for every shipment. Data elements which are "conditional" must be provided to CBP only if the particular information pertains to the cargo. Data elements which are "optional" may be provided to CBP but are not required. The data elements are set forth below:

- (1) Exporting Carrier
- (2) Marks of nationality and registration
- (3) Flight number
- (4) Port of lading

**II. Renewal of the ACE Export Manifest for Air Cargo Test Period**

CBP will renew the test for another two years to continue further evaluation of the ACE Export Manifest for Air Cargo Test and determine whether

electronic submission of the manifest will improve capabilities at the departure level. The extended test will now run for two additional years from the date of publication.
