9. Chinese Patent Application No. 202280047288.0 filed January 1, 2024, entitled “T Cell Receptors Recognizing C135Y, R175H or M237I Mutation in P53” [HHS Reference No. E–101–2021–0–CN–05]; and

10. Hong Kong Patent Application No. 62024096322.8 filed September 3, 2024, entitled “T Cell Receptors Recognizing C135Y, R175H or M237I Mutation in P53” [HHS Reference No. E–101–2021–0–HK–01].

The patent rights in these inventions have been assigned to the Government of the United States of America.

The prospective exclusive license territory may be “worldwide”, and the field of use may be limited to the following:

“T Cell Receptor (TCR)-engineered T cell therapy products for the treatment of cancer in humans.”

E–101–2021 patent family is primarily directed to isolated TCRs reactive to certain mutated forms of tumor protein 53 (TP53 or P53), within the context of several human leukocyte antigens. *P53* is the archetypal tumor suppressor gene and the most frequently mutated gene in cancer. Contemporary estimates suggest that >50% of all tumors carry mutations in *P53*. Because of its prevalence in cancer and its restricted expression to precancerous and cancerous cells, this antigen may be targeted on mutant P53-expressing tumors with minimal normal tissue toxicity.

This Notice is made in accordance with 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive license will be royalty bearing, and the prospective exclusive license may be granted unless within fifteen (15) days from the date of this published notice, the National Cancer Institute receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

Complete applications for a license that are timely filed in response to this notice will be treated as objections to the grant of the contemplated exclusive patent license. In response to this Notice, the public may file comments or objections. Comments and objections, other than those in the form of a license application, will not be treated confidentially, and may be made publicly available.

License applications submitted in response to this Notice will be presumed to contain business

confidential information and any release of information in these license applications will be made only as required and upon a request under the Freedom of Information Act, 5 U.S.C. 552.

Overview of This Information Collection

Title: Customs Declaration.

OMB Number: 1651-0009.

Form Number: 6059B.

Current Actions: Revision.

Type of Review: Revision.

Affected Public: Individuals.

Abstract: CBP Form 6059B, Customs Declaration, is used as a standard report of the identity and residence of each person arriving in the United States. This form is also used to declare imported articles to U.S. Customs and Border Protection (CBP) in accordance with 19 CFR 122.27, 148.12, 148.13, 148.110, 148.111; 31 U.S.C. 5316 and Section 498 of the Tariff Act of 1930, as amended (19 U.S.C. 1498).

Section 148.13 of the CBP regulations prescribes the use of the CBP Form 6059B when a written declaration is required of a traveler entering the United States. Oral declarations are permissible under conditions as provided by 19 CFR 148.12 (*e.g.* items below a certain value). However, CBP may require a written declaration at any time. If an oral declaration is not accepted under 19 CFR 148.12, a written declaration is required using CBP form 6059B pursuant to 19 CFR 148.13.

CBP continues to find ways to improve the entry process through the use of mobile technology to ensure it is safe and efficient. To that end, CBP has deployed a process which allows travelers to use a mobile app to submit information to CBP prior to arrival in domestic locations and prior to departure at preclearance locations. This process, called Mobile Passport Control (MPC), allows travelers to use a designated lane upon arrival into the United States or departing a preclearance location. The MPC process
