**Paperwork Reduction Act**

The criteria used to identify MCTAs under section 332(k) of the PHS Act, as described in this announcement, will not involve data collection activities that fall under the purview of the Paperwork Reduction Act of 1995. If the methods for determining MCTAs fall under the purview of the Paperwork Reduction Act, HRSA will seek the Office of Management and Budget clearance for proposed data collection activities.

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

[Docket No. USCG-2026-0351]

#### Certificate of Alternative Compliance for the AHT SAKMAN

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notification of issuance of a certificate of alternative compliance.

**SUMMARY:** The Coast Guard announces that the U.S. Coast Guard Oceania District Prevention Division has issued a certificate of alternative compliance from the International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), for the ANCHOR HANDLING TUG (AHT) SAKMAN (ON 1362284). We are issuing this notice because its publication is required by statute. Due to the construction and placement of the forward superstructure and aft working deck, the AHT SKAMAN cannot fully comply with the lighting provisions of the 72 COLREGS without interfering with the vessel's design and construction. This notification of issuance of a certificate of alternative compliance promotes the Coast Guard's marine safety mission.

**DATES:** The certificate of alternative compliance was issued on March 20, 2026.

**FOR FURTHER INFORMATION CONTACT:** For information or questions about this notice call or email CDR Simone Mausz, Oceania District (dpi), U.S. Coast Guard; (571) 607-6091, [simone.mausz@uscg.mil](mailto:simone.mausz@uscg.mil).

**SUPPLEMENTARY INFORMATION:** The United States is signatory to the International Maritime Organization's International Regulations for Preventing Collisions at Sea, 1972 (72 COLREGS), as amended. The special construction or purpose of some vessels makes them unable to comply with the light, shape, or sound signal provisions of the 72 COLREGS. Under statutory law, however, specified 72 COLREGS

provisions are not applicable to a vessel of special construction or purpose if the Coast Guard determines that the vessel cannot comply fully with those requirements without interfering with the special function of the vessel.<sup>1</sup>

The owner, builder, operator, or agent of a special construction or purpose vessel may apply to the Coast Guard District Office in which the vessel is being built or operated for a determination that compliance with alternative requirements is justified,<sup>2</sup> and the Chief of the Prevention Division will then issue the applicant a certificate of alternative compliance (COAC) if he or she determines that the vessel cannot comply fully with 72 COLREGS light, shape, and sound signal provisions without interference with the vessel's special function.<sup>3</sup> If the Coast Guard issues a COAC, it must publish notice of this action in the **Federal Register**.<sup>4</sup>

The Chief of Prevention Division, Oceania District, U.S. Coast Guard, certifies that the AHT SAKMAN (ON 1362284) is a vessel of special construction or purpose, and that, with respect to the position of the forward superstructure and aft working deck, it is not possible to comply fully with the lighting and special shapes requirements of the provisions enumerated in the 72 COLREGS, without interfering with the normal operation, construction, or design of the vessel. The Chief of Prevention Division, Oceania District, U.S. Coast Guard, further finds and certifies that the due to the construction and placement of the forward superstructure and aft working deck, the current lighting configuration placing the stern light and towing light at frame 40, and the vertical and horizontal spacing of lights 1m and 24m respectively, are in the closest possible compliance with the applicable provisions of the 72 COLREGS.<sup>5</sup>

This notice is issued under authority of 33 U.S.C. 1605(c) and 33 CFR 81.18.
