

significant disruption and damage to buildings, transportation, water and wastewater, power supply, communications equipment, agriculture, and primary production leading to potentially substantial societal impacts and costs, even at thicknesses of only a few millimeters or inches. Additionally, fine grained ash, when ingested can cause health impacts to humans and animals. The USGS will use reports entered in real time by respondents of ash fall in their local area to correct or refine ash fall forecasts as the ash cloud moves downwind. Retrospectively these reports will enable USGS to improve their ash fall models and further research into eruptive processes.

This project is a database module and web interface allowing the public and Alaska Volcano Observatory (AVO) staff to enter reports of ash fall in their local area in real time and retrospectively following an eruptive event. Users browsing the AVO website during eruptions will be directed towards a web form allowing them to fill in ash fall information and submit the information to AVO.

Compiled ashfall reports are available in real-time to AVO staff through the AVO internal website. A pre-formatted summary report or table that distills information received online will show ash fall reports in chronological order with key fields including (1) date and time of ash fall, (2) location, (3) positive or negative ash fall (4) name of observer, and (5) contact information is easily viewable internally on the report so that calls for clarification can be made by AVO staff quickly and Operations room staff can visualize ashfall information quickly.

Ashfall report data will also be displayed on a dynamic map interface and show positive (yes ash) and negative (no ash) ash fall reports by location. Ashfall reports (icons) will be publicly displayed for a period of 24 hours and shaded differently as they age so that the age of reports is obvious.

The ashfall report database will help AVO track eruption clouds and associated fallout downwind. These reports from the public will also give scientists a more complete record of the amount and duration and other conditions of ash fall. Getting first-hand accounts of ash fall will support model ash fall development and interpretation of satellite imagery. AVO scientists will—as time allows—be able to contact the individuals using their entered contact information for clarification and details. Knowing the locations from which ash-fall reports have been filed will improve ash fall warning messages,

AVO Volcanic Activity Notifications, and make fieldwork more efficient. AVO staff will be able to condense and summarize the various ash fall reports and forward that information on to emergency management agencies and the wider public. The online form will also free up resources during exceedingly busy times during an eruption, as most individuals currently phone AVO with their reports.

*Title of Collection:* USGS Ash Fall Report.

*OMB Control Number:* 1028–0106.

*Form Number:* None.

*Type of Review:* Extension of a currently approved collection.

*Respondents/Affected Public:* General Public, local governments and emergency managers.

*Total Estimated Number of Annual Respondents:* We are likely to ask individuals to respond 1–6 times year which is the number of past eruptions we have during any one year in Alaska. Individuals can submit responses more than once during an eruption to report ashfall details.

*Total Estimated Number of Annual Respondents:* 250.

*Total Estimated Number of Annual Responses:* 250 individuals affected by a volcanic ashfall event each year.

*Estimated Completion Time per Response:* We estimate the public reporting burden will average 5 minutes per response. This includes the time for reviewing instructions and answering a web-based questionnaire.

*Total Estimated Number of Annual Burden Hours:* 21 hours.

*Respondent's Obligation:* Voluntary.

*Frequency of Collection:* On occasion, after each ashfall event.

*Total Estimated Annual Non-hour Burden Cost:* \$750.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

**Jacob Lowenstern,**

*Center Director, USGS Volcano Science Center.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Reclamation

[RN.17730001.0000000 26XR0680S1 RR040U2200]

### Colorado River Basin Salinity Control Advisory Council Notice of Public Meeting

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Bureau of Reclamation is publishing this notice to announce that a Federal Advisory Committee meeting of the Colorado River Basin Salinity Control Advisory Council (Council) will take place. The meeting is open to the public.

**DATES:** The meeting will take place in-person and virtually on Wednesday, May 13, 2026, beginning at 3:00 p.m. to approximately 4:30 p.m. (PDT) and Thursday, May 14, 2026, beginning at 8:30 a.m. to approximately 9:30 a.m. (PDT).

**ADDRESSES:** The in-person meeting will be held at the Southern Nevada Water Authority, Molasky Corporate Center, 100 N City Parkway, Las Vegas, NV 89106.

The virtual meeting held on Wednesday, May 13, 2026, may be accessed at <https://us02web.zoom.us/j/89470457016>.

The virtual meeting held on Thursday, May 14, 2026, may be accessed at <https://us02web.zoom.us/j/84829775490>.

**FOR FURTHER INFORMATION CONTACT:** Kathleen Callister, telephone (801) 524–3781; email at [kcallister@usbr.gov](mailto:kcallister@usbr.gov). Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** The meeting of the Council is being held under the provisions of the Federal Advisory Committee Act of 1972. The Council was established by the Colorado River Basin Salinity Control Act of 1974 (Pub. L. 93–320) (Act) to receive reports and advise Federal agencies on implementing the Act.

*Purpose of the Meeting:* The purpose of the meeting is to discuss the accomplishments of Federal agencies and make recommendations on future

activities to control salinity in the Colorado River Basin.

**Agenda:** Council members will be briefed on the status of salinity control activities. Discussions about salinity control research studies will occur. The Bureau of Reclamation, Bureau of Land Management, U.S. Fish and Wildlife Service, and United States Geological Survey of the Department of the Interior; the Natural Resources Conservation Service of the Department of Agriculture; and the Environmental Protection Agency will each present a progress report and a schedule of activities on salinity control in the Colorado River Basin. The Council will discuss salinity control activities, the contents of the reports, and the Basin States Program created by Public Law 110–246, which amended the Act. A final agenda will be posted online at <https://www.usbr.gov/uc/progact/salinity/> at least one week prior to the meeting. This notice is published less than seven days in advance of the meeting as agenda items require the Council's immediate consideration to support Federal program deadlines, interagency coordination needs, and time-sensitive decision processes essential to program implementation. Delay in convening the Council would impede the ability to meet program timelines, address pending recommendations, and ensure continuity in federally mandated planning and review processes in support of public interests.

**Meeting Accessibility/Special Accommodations:** The meeting is open to the public. Please make requests in advance for sign language interpreter services, assistive listening devices, or other reasonable accommodations. We ask that you contact Ms. Kathleen Callister (see **FOR FURTHER INFORMATION CONTACT** section of this notice) at least seven (7) business days prior to the meeting to give the Department of the Interior sufficient time to process your request. All reasonable accommodation requests are managed on a case-by-case basis.

Individuals wanting virtual access to the meeting or those requiring special accommodations should contact Kathleen Callister (see **FOR FURTHER INFORMATION CONTACT**) no later than seven (7) days prior to the meeting, to receive instructions.

**Public Comments:** The Council chairman will provide time for oral comments from members of the public at the meeting. Individuals wanting to make an oral comment should contact Ms. Kathleen Callister (see **FOR FURTHER INFORMATION CONTACT**) to be placed on the public comment list. Members of the

public may also file written statements with the Council before, during, or up to 30 days after the meeting either in person or by mail. Written comments provided to Kathleen Callister (see **FOR FURTHER INFORMATION CONTACT**) by May 8, 2026, will be considered during the Council meeting.

**Public Disclosure of Personal Information:** Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Authority:** 5 U.S.C. Ch. 10.

**Stephanie McPhee,**

*Group Federal Officer, Bureau of Reclamation.*

## DEPARTMENT OF JUSTICE

[OMB Number 1121–0360]

### Agency Information Collection Activities; Proposed eCollection eComments Requested; Extension of a Previously Approved Collection; Generic Clearance for Cognitive, Pilot, and Field Studies for Office of Juvenile Justice and Delinquency Prevention Data Collection Activities

**AGENCY:** Office of Justice Programs, Department of Justice.

**ACTION:** 30-Day notice.

**SUMMARY:** The National Institute of Justice, Office of Justice Programs, Department of Justice (DOJ), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

**DATES:** Comments are encouraged and will be accepted for 30 days until June 8, 2026.

**FOR FURTHER INFORMATION CONTACT:** If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact: Benjamin Adams, Supervisory Social Science Analyst, National Institute of Justice, 999 N Capitol Street

NE, Washington, DC 20531 (email: [benjamin.adams@usdoj.gov](mailto:benjamin.adams@usdoj.gov); telephone: 202–598–6493).

**SUPPLEMENTARY INFORMATION:** The proposed information collection was previously published in the **Federal Register** on March 10, 2026, allowing a 60-day comment period.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Office of Juvenile Justice and Delinquency Prevention, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and/or
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Written comments and recommendations for this information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the information collection or the OMB Control Number 1121–0360. This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov). Follow the instructions to view Department of Justice, information collections currently under review by OMB.

DOJ seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOJ notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.
