*Title:* Schedule A and Veterans Recruitment Initiative.

*OMB number:* 3095–0075.

*Agency form number:* NA Form 3102, NARA Employment Interest Questionnaire.

*Type of review:* Regular.

*Affected public:* Individuals or households.

*Estimated number of respondents:* 300.

*Estimated time per response:* 5 minutes.

*Frequency of response:* On occasion.

*Estimated total annual burden hours:* 25 hours.

*Abstract:* This recruitment initiative connects people who are veterans or are Schedule A-eligible with non-competitive employment opportunities within our agency. The Special Program Placement Coordinator (SPPC) serves as a liaison between the applicant and NARA managers and supervisors to find viable employment opportunities for applicants.

SPPC has developed a Resume Repository (retained in a spreadsheet) to store resumes of qualified individuals who may meet our hiring needs. The Repository helps our agency find highly motivated veterans and Schedule A candidates who are eager to demonstrate their abilities in the workplace through excepted service positions, which could become permanent positions after trial period requirements have been met.

We collect the information for the Repository through an online form, NA Form 3102, NARA Employment Interest Questionnaire, which includes the following information for each individual: Applicant name, email address, phone number, U.S. citizenship

status, past federal employment, referral source, desired work location, types of positions applicant is interested in (may be multiple areas of interest), and minimum starting grade level.

We enter the collected information from the questionnaire into the Repository spreadsheet, which managers and supervisors can use to sort and filter by position(s) of interest and/or duty location. We include resumes and cover letters as a link beside each candidate's entry so managers can view them and consider the candidate when looking for an employee. Managers have unlimited access to the Repository information and resumes to select qualified applicants to fill vacancies through a direct, non-competitive hire.

The Schedule A and veterans recruitment questionnaire link will be listed in our agency's information on the OPM website, in information provided by other agencies and organizations with similar programs, and on various pages of our agency's website at <https://www.archives.gov/>.

Candidates must be U.S. citizens, eligible veterans, or be eligible under the Schedule A hiring authority.

## NUCLEAR REGULATORY COMMISSION

[NRC–2026–1057]

### Privacy Act of 1974; System of Records

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of modified system of records.

**SUMMARY:** Pursuant to the Privacy Act of 1974, as amended, the U.S. Nuclear Regulatory Commission (NRC) proposes to revise System of Records NRC 16, which includes Privacy Act records regarding facility operator licensees, to reflect the NRC’s issuance of a final rule establishing a new risk-informed, technology-inclusive regulatory framework for advanced reactors. This final rule establishes a new part within the NRC’s regulations that includes, among other things, provisions for licensing facility operators. The revision to NRC 16 clarifies that the system will now include records about individuals licensed as operators under the new regulations, while continuing to include records about individuals licensed under the NRC’s pre-existing operator licensing regulations. This system notice is subject to a 30-day public comment period.

**DATES:** Submit comments on revisions and changes by June 8, 2026. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

#### FOR FURTHER INFORMATION CONTACT:

Sally Hardy, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–5607; email: [Sally.Hardy@nrc.gov](mailto:Sally.Hardy@nrc.gov).

**SUPPLEMENTARY INFORMATION:** The NRC is proposing to revise the following system of records: NRC 16, “Facility Operator Licensees Records (10 CFR part 55).” Because the NRC may now issue facility operator licenses under its newly issued part 53 of title 10 of the *Code of Federal Regulations* (10 CFR), which provides a risk-informed, technology-inclusive regulatory framework for advanced reactors. The revision changes the name of the system of records to “Facility Operator Licensees Records (10 CFR part 53 or 55, as applicable.)” and clarifies that the system covers individuals licensed as operators under the new 10 CFR part 53, in addition to individuals licensed under 10 CFR part 55. No other substantive changes are proposed. As part of the update, the NRC proposes to rename the system to more accurately describe the categories of individuals and records covered. The NRC also proposes conforming amendments to incorporate references to the new regulations, and make related clarifying changes, in the following sections of the system notice: Authority for Maintenance of the System, Categories of Individuals Covered by the System; Categories of Records in the System; Record Source Categories; Routine Uses of Records Maintained in the System, including Categories of Users and the Purpose of Such Uses (specifically routine use a); and Policies and Practices for Retention and Disposal of Records. No other substantive changes are proposed.

A report on these revisions has been sent to OMB, the Committee on Homeland Security and Governmental Affairs of the U.S. Senate, and the Committee on Oversight and Accountability of the U.S. House of Representatives, as required by the Privacy Act.
