BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2026–1057]

Privacy Act of 1974; System of Records

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of modified system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, as amended, the U.S. Nuclear Regulatory Commission (NRC) proposes to revise System of Records NRC 16, which includes Privacy Act records regarding facility operator licensees, to reflect the NRC’s issuance of a final rule establishing a new risk-informed, technology-inclusive regulatory framework for advanced reactors. This final rule establishes a new part within the NRC’s regulations that includes, among other things, provisions for licensing facility operators. The revision to NRC 16 clarifies that the system will now include records about individuals licensed as operators under the new regulations, while continuing to include records about individuals licensed under the NRC’s pre-existing operator licensing regulations. This system notice is subject to a 30-day public comment period.

DATES: Submit comments on revisions and changes by June 8, 2026. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDRESSES: You may submit comments by any of the following methods; however, the NRC encourages electronic

SUPPLEMENTARY INFORMATION: The NRC is proposing to revise the following system of records: NRC 16, “Facility Operator Licensees Records (10 CFR part 55).” Because the NRC may now issue facility operator licenses under its newly issued part 53 of title 10 of the *Code of Federal Regulations* (10 CFR), which provides a risk-informed, technology-inclusive regulatory framework for advanced reactors. The revision changes the name of the system of records to “Facility Operator Licensees Records (10 CFR part 53 or 55, as applicable.)” and clarifies that the system covers individuals licensed as operators under the new 10 CFR part 53, in addition to individuals licensed under 10 CFR part 55. No other substantive changes are proposed. As part of the update, the NRC proposes to rename the system to more accurately describe the categories of individuals and records covered. The NRC also proposes conforming amendments to incorporate references to the new regulations, and make related clarifying changes, in the following sections of the system notice: Authority for Maintenance of the System, Categories of Individuals Covered by the System; Categories of Records in the System; Record Source Categories; Routine Uses of Records Maintained in the System, including Categories of Users and the Purpose of Such Uses (specifically routine use a); and Policies and Practices for Retention and Disposal of Records. No other substantive changes are proposed.

A report on these revisions has been sent to OMB, the Committee on Homeland Security and Governmental Affairs of the U.S. Senate, and the Committee on Oversight and Accountability of the U.S. House of Representatives, as required by the Privacy Act.

If changes are made based on the NRC's review of comments received, the NRC will publish a subsequent notice.

The text of the report, in its entirety, is attached.
