FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Jesse Hartle, 202–245–6411.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate;

(4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Report of the Randolph-Sheppard Vending Facility Program.

OMB Control Number: 1820–0009.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 51.

Total Estimated Number of Annual Burden Hours: 1,199.

Abstract: The Randolph-Sheppard Act (Act) provides persons who are blind with remunerative employment and self-support through the operation of vending facilities on Federal and other property. The program, enacted into law in 1936, was intended to enhance employment opportunities for trained, licensed blind persons to operate vending facilities. At the outset, the program placed sundry stands in the lobbies of Federal office buildings and post offices, selling such items as newspapers, magazines, candies, and tobacco products. The law was subsequently amended in 1954 and again in 1974 to ensure individuals who are blind a priority in the operation of vending facilities, which now include cafeterias, military dining facilities, snack bars, interstate highway rest areas, and automatic vending machines on Federal property. Most States also have programs that include State, county, municipal, and private installations.

The licensing and operation of vending facilities by blind vendors under the Act is supported by a combination of VR program funds, State appropriations, Federal vending machine income, and levied set asides from vendors. As required by 20 U.S.C. 107a(6)(a), the Secretary of Education, through the Commissioner of the Rehabilitation Services Administration (RSA), conducts periodic evaluations of the programs authorized under the Act. In addition, section 107b(4) requires entities designated as the State licensing agency (SLA) to “make such reports in such form and containing such information as the Secretary may from time to time require. . . .” The information to be collected is a necessary component of the evaluation process and forms the basis for reporting to the Department. The data are also

used to understand the distribution type and profitability of vending facilities throughout the country. Such information is useful in providing technical assistance to SLAs and property managers and in monitoring the implementation of the program. The Code of Federal Regulations, at 34 CFR 395.8, specifies that vending machine income received by the State from Federal property managers can be distributed to blind vendors in an amount not to exceed the national average income for blind vendors. This amount is determined through data collected by the RSA–15: Report of Randolph-Sheppard Vending Facility Program. In addition, the collection of information ensures the provision and transparency of activities referenced in 34 CFR 395.12 related to disclosure of program and financial information and assists with the requirement in 34 CFR 395.11 regarding the provision of training.

This information collection (IC) will be implemented upon the expiration of the current IC on October 31, 2026; however, it is requested to begin the use of this form and the new instructions for the FY 2026 data collection beginning on October 1, 2026. The 51 SLAs will submit their data through the RSAMIS on the rsa.ed.gov website during the 90-day data collection period (10/1/2026–12/30/2026).

Ross Santy,

Chief Data Officer, Office of Planning, Evaluation and Policy Development.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF26-4-000]

WBI Energy Transmission, Inc.; Notice of Scoping Period Requesting Comments on Environmental Issues for the Planned Bakken East Pipeline Project, and Notice of Public Scoping Sessions

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document that will discuss the environmental effects of the Bakken East Pipeline Project involving construction and operation of facilities by WBI Energy Transmission, Inc. (WBI Energy) in McKenzie, Dunn, Mercer, Oliver, Burleigh, Kidder, Stutsman, Barnes, and Cass Counties, North Dakota. The Commission will use this environmental document in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the project. As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental effects that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. This gathering of public input is referred to as “scoping.” The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. Additional information about the Commission’s NEPA process is described below in the *NEPA Process and Environmental Document* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the environmental document. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on June 4, 2026. Comments may be submitted in written or oral form. Further details on how to submit comments are provided in the *Public Participation* section of this notice.

Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental effects. Your input will help the Commission staff determine what issues they need to evaluate in the environmental document. Commission staff will consider all written or oral comments during the preparation of the environmental document.

If you submitted comments on this project to the Commission before the opening of this docket on December 23, 2025, you will need to file those comments in Docket No. PF26-4-000 to ensure they are considered.

This notice is being sent to the Commission’s current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable easement agreement. You are not
