**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on August 1, 2024, based on a complaint filed by Sun Pharmaceutical Industries, Inc. ("Complainant") of Princeton, New Jersey. 89 FR 62790 (Aug. 1, 2024). The complaint, as supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, based on the importation into the United States, the sale for importation, and the sale within the United States after importation of certain photodynamic therapy systems, components thereof, and pharmaceutical products used in combination with the same by reason of infringement of certain claims of the U.S. Patent Nos. 11,446,512 ("the '512 patent") and 11,697,028 ("the '028 patent") (collectively, "the Asserted Patents"). *Id.* The complaint further alleges that a domestic industry exists or is in the process of being established. *Id.* The notice of investigation names four respondents: (1) Biofrontera Inc. of Woburn, Massachusetts; (2) Biofrontera Pharma GmbH of Leverkusen, Germany; (3) Biofrontera Bioscience GmbH of Leverkusen, Germany; and (4) Biofrontera AG of Leverkusen, Germany (collectively, "Respondents"). *Id.* The Office of Unfair Import Investigations is not a party to this investigation. *Id.*

On November 20, 2024, the Commission amended the complaint and notice of investigation to add infringement allegations as to claims 17 and 18 of the '512 patent. Order No. 8

(Oct. 22, 2024), *unreviewed* by Comm'n Notice (Nov. 20, 2024).

On June 25, 2025, the ALJ issued Order No. 23 granting, pursuant to Commission Rule 210.18 (19 CFR 210.18), Complainant's motion for summary determination that it has satisfied the economic prong of the domestic industry requirement.

On July 25, 2025, the Commission determined to review Order No. 23. Comm'n Notice at 2 (July 25, 2025).

On September 30, 2025, the ALJ issued the FID, finding a violation of section 337. The FID finds that: (1) claims 1, 3, 5, 8, 17-18, and 20 of the '512 patent and claims 1, 2, 4, 16, 17, and 19-21 of the '028 patent, are directly infringed; (2) claims 8, 17, and 18 of the '512 patent are indirectly infringed via inducement; (3) none of the claims asserted for infringement and/or domestic industry are invalid under 35 U.S.C. 103 and/or 112, ¶ 1; and (4) Complainant has satisfied the technical prong of the domestic industry requirement for both Asserted Patents by practicing claims 1, 2, 4, 5, 8, 19, and 20 of the '512 patent and claims 1, 3, 4, 5, 7, 9, 16-18, and 21 of the '028 patent. The FID also includes the ALJ's recommended determination ("RD") on remedy, the public interest, and bonding, should the Commission find a violation of section 337. Specifically, the RD recommends entry of a limited exclusion order against Respondents' infringing products, entry of a cease and desist orders against each of Respondents, and a bond of zero percent for any importations of infringing products during the period of Presidential review.

On November 17, 2025, Complainant filed a petition for review seeking review of the following findings: (1) that the preamble of each asserted claim is limiting and (2) the RD's recommendation to set a bond of zero percent for any importations of infringing products during the period of Presidential review. On the same day, Respondents filed a petition for review seeking review of the following findings: (1) that the claim terms "nested hinges" and "higher intensity proximate" are not indefinite; (2) that the asserted claims are not invalid under 35 U.S.C. 103 for obviousness, or under § 112 ¶ 1 for lack of written description; (3) that certain claims are either directly or indirectly infringed; and (4) that certain declarations from *inter partes* review proceedings are admissible. On November 24, 2025, Complainant and Respondents filed their respective petition responses.

On January 28, 2026, the Commission determined to review the FID in part. 91
