

Interventions

Any person, which includes individuals, organizations, businesses, municipalities, and other entities,⁷ has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁸ and the regulations under the NGA⁹ by the intervention deadline for the project, which is 5:00 p.m. Eastern Time on May 27, 2026. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP26-257-000 in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Intervention." The eFiling feature includes a document-less intervention option; for more information, visit <https://www.ferc.gov/docs-filing/efiling/document-less-intervention.pdf>; or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below. Your motion to intervene must reference the Project docket number CP26-257-000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To file via any other courier: Debbie-Anne A. Reese, Secretary, Federal

Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Tad Lalande, Black Bayou Gas Storage, LLC, 1301 Camellia Blvd., Lafayette, Louisiana 70508, or by email (with a link to the document) at TLalande@blackbayouenergyhub.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed¹⁰ motions to intervene are automatically granted by operation of Rule 214(c)(1).¹¹ Motions to intervene that are filed after the intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations.¹² A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from OPP at (202) 502-6595 or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to

register, go to www.ferc.gov/docs-filing/esubscription.asp.

SUPPLEMENTARY INFORMATION:

Title: FERC-600, Rules of Practice and Procedure: Complaint Procedures.

OMB Control No.: 1902-0180.

Type of Request: Three-year extension without any changes of the current information collection requirements.

Abstract: In accordance with 18 CFR 385.206, any person may file a complaint seeking Commission action against any other person alleged to be in contravention or violation of “any statute, rule, order, or other law administered by the Commission, or for any other alleged wrong over which the Commission may have jurisdiction.” Regulations at 18 CFR part 343 provide for additional procedures and information collection requirements for complaints and other filings that pertain to oil pipelines under the Interstate Commerce Act. The filing of a

complaint with the Commission is not a requirement of the Commission. The Commission’s governing statutes establish the ability for a person to challenge a filed rate. These regulations establish the procedures and minimum information requirements pursuant to which a complainant would file a complaint with the Commission if it chooses to do so. The minimum information requirements for a complaint include:

- Identifying clearly the alleged violation and explaining how it violates the applicable statutory or regulatory requirements
- Setting forth the business, commercial, economic or other issues involved
- Making a good faith effort to quantify the financial impact or burden and indicating the practical, operational, or other impacts
- Indicating whether the issues are part of a pending proceeding and why the issue cannot be timely resolved in that proceeding
- Stating whether an alternative dispute resolution was used or could be used to resolve the complaint
- Stating the specific relief or remedy requested
- Including all relevant documents and a form of notice suitable for publication in the **Federal Register**

The minimum requirements are necessary to ensure that the Commission has the factual basis to make a determination regarding the merits of the complaint.

Type of Respondents: Any person that files a complaint for Commission review and resolution.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden ¹ and cost ² for the information collection as shown in the following table:

A. Number of respondents	B. Annual number of responses	C. Total number of responses (Column A × Column B)	D. Average burden hour and cost per response	E. Total annual burden hour and cost (Column C × Column D)	F. Cost per respondent (Column E ÷ Column A)
62	1	62	160 hrs.; \$16,480	9,920 hrs.; \$1,021,760	\$16,480

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further

explanation of what is included in the information collection burden, refer to 5 CFR 1320 (2025)

² The Commission staff thinks that the average respondent for this collection is similarly situated

to the Commission, in terms of salary plus benefits. Based upon the Commission’s 2025 average cost for salary plus benefits, the average hourly cost is \$103/hour.
