The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request:* PE Hydro requests Commission approval for an amendment to its Operations and Compliance Monitoring Plan. The amendment would add provisions for planned deviations of minimum flow and/or run-of-river operation for periods of less than three weeks to allow PE Hydro to perform required annual dam safety inspections and necessary maintenance at the project. Any such deviations would be conducted upon mutual agreement between PE Hydro and West Virginia Department of Environmental Protection, West Virginia Department of Natural Resources, and U.S. Fish and Wildlife Service (collectively, resource agencies). Deviations lasting more than three weeks would require Commission staff's approval under a temporary variance application. PE Hydro's request includes proposed requirements for reporting any deviations to the Commission and resource agencies.

PE Hydro's filing also includes a proposed modified WQC from West Virginia DEP, for the Commission's consideration, that would allow for short deviations of minimum flow and/or run-of-river operations under resource agency consultation and mutual agreement, as described above. These modifications to the WQC would reduce the burden of excessive reporting and review for PE Hydro, the resource agencies, and Commission staff, and would facilitate necessary safety inspections and maintenance.

m. *Locations of the Application:* This filing may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214, respectively. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.
