BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Nevada

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces an in-person/virtual meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Nevada. The Federal Advisory Committee Act requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, June 17, 2026; 4–6 p.m. PDT.

ADDRESSES: Molasky Corporate Center, 15th Floor Conference Room, 100 North City Parkway, Las Vegas, Nevada 89106. This meeting will be held in-person at the Molasky Corporate Center and virtually. To receive the virtual access information, please contact the Nevada Site Specific Advisory Board (NSSAB) Administrator at the telephone number

or email listed below at least two days prior to the meeting.

FOR FURTHER INFORMATION CONTACT:

Barbara Ulmer, NSSAB Administrator, NSSAB Office, by phone: 702-523-0894 or email: nssab@emcbc.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: At the request of the Assistant Secretary or Field Managers, the Board may provide community-based advice and recommendations concerning any EM program activities, such as clean-up activities and environmental restoration; waste management and disposition; excess facilities; future land use and long-term stewardship; communications; and budget priorities. The Board also provides an avenue to fulfill public participation requirements outlined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERLA), the Resource Conservation and Recovery Act (RCRA), Federal Facility Agreements, Consent Orders, Consent Decrees and Settlement Agreements.

Tentative Agenda: (agenda topics are subject to change; please contact the NSSAB Administrator for the most current agenda).

- Public Comment Period
- Update from Deputy Designated Federal Officer
- Update from National Nuclear Security Administration/Nevada Field Office
- Updates from NSSAB Liaisons
- Presentation to the Board
- Board Business

Public Participation: The meeting is open to the public and public comment can be given orally or in writing. Fifteen minutes are allocated during the meeting for public comment and those wishing to make oral comment will be given a minimum of two minutes to speak. Written comments received at least two working days prior to the meeting will be provided to the members and included in the meeting minutes. Written comments received within two working days after the meeting will be included in the minutes. For additional information on public comment and to submit written comment, please contact the NSSAB Administrator. The EM SSAB, Nevada, welcomes the attendance of the public at its meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact the NSSAB Administrator at least seven days in advance of the meeting.

Meeting conduct: The Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Questioning of board members or presenters by the public is not permitted.

Minutes: Minutes will be available at the following website: <https://www.nnss.gov/nssab/nssab-meetings/>.

Signing authority: This document of the Department of Energy was signed on May 8, 2026, by David Borak, Committee Management Officer, pursuant to delegated authority from the Secretary of Energy. BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC26-7-000]

Commission Information Collection Activities (FERC-577) Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507(a)(1)(D), the Federal Energy Regulatory Commission (Commission or FERC) is submitting its information collection FERC-577: Natural Gas Facilities: Environmental Review and Compliance to the Office of Management and Budget (OMB) for review of the information collection requirements. There are no proposed changes to the reporting requirements in this collection. However, FERC has corrected errors in previously published burden tables to reflect the burden published in RM22-8.

DATES: Comments on the collection of information are due June 11, 2026.

ADDRESSES: Send written comments on FERC–577 to OMB through https://www.reginfo.gov/public/do/PRA/icrPublicCommentRequest?ref_nbr=202604-1902-003. You can also visit <https://www.reginfo.gov/public/do/PRAMain> and use the drop-down under “Currently under Review” to select the “Federal Energy Regulatory Commission” where you can see the open opportunities to provide comments. Comments should be sent within 30 days of publication of this notice.

Please submit a copy of your comments to the Commission via email to DataClearance@FERC.gov. You must specify the Docket No. (IC26–7–000) and the FERC Information Collection number (FERC–577) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

- *Mail via U.S. Postal Service Only:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.
- *All other delivery methods:* Federal Energy Regulatory Commission, Secretary of the Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Docket: To view comments and issuances in this docket, please visit <https://elibrary.ferc.gov/eLibrary/search>.

FOR FURTHER INFORMATION CONTACT: Kayla Williams may be reached by email at DataClearance@FERC.gov, or by telephone at (202)502–6468.

SUPPLEMENTARY INFORMATION:

Title: FERC–577, Natural Gas Facilities: Environmental Review and Compliance.

OMB Control No.: 1902–0128.

Type of Request: Three-year extension of the FERC–577 information collection requirements with no changes to the current reporting requirements.

Abstract: FERC–577 identifies the Commission’s information collections pertaining to 18 CFR parts 2, 153, 157, 284, and 380.

Parts 2, 153, 157, and 380 of the Commission’s regulations outline the environmental resource related information that natural gas companies must provide when seeking authorization to construct or abandon natural gas facilities. The required information addresses the resource areas affected by the proposed action and describes the impact the project is likely to have and the measures the applicant will implement to mitigate those impacts. The proposed action will determine the specific information a company must submit. Per the National Environmental Policy Act, all federal agencies are required to give appropriate consideration to the environmental effects of the proposed actions in their decision making; this information allows the Commission to fulfill its NEPA obligations.

Parts 2, 157, 284, and 380 of the Commission’s regulations also outline the requirements for natural gas companies that are subject to FERC’s jurisdiction to notify affected

landowners of certain planned activities prior to coming onto landowners’ property.¹ The notifications include: (1) a brief description of the activity to be conducted or facilities to be constructed/replaced and the effects that the activities are expected to have on the landowner’s property; (2) the name and phone number of the company representative that is knowledgeable about the project; and (3) a description of the Commission’s Dispute Resolution Service Helpline, as explained in Section 1b.21(g) of the Commission’s regulations, and the Dispute Resolution Service Helpline number. The Commission defines “affected landowners” as owners of property interests, as noted in the most recent tax notice, whose property is directly affected (*i.e.* crossed or used) by the proposed activity, including all rights-of-way, facility sites, access roads, pipe and contractor yards, and temporary workspaces.

The FERC–577 information collections cannot be discontinued or conducted less frequently. Without such information, the Commission would be unable to fulfill its statutory responsibilities under the Natural Gas Act and NEPA.

Type of Respondents: Natural Gas Companies subject to FERC’s jurisdiction.

*Estimate of Annual Burden:*² The Commission estimates the annual public reporting burden and cost³ for the information collection as follows.⁴

	Number of respondents	Number of responses per respondent	Total number of responses	Average burden hours & average cost per response (\$) (rounded)	Total annual burden hours & total annual cost (\$) (rounded)	Cost per respondent (\$) (rounded)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1) = (6)
Natural Gas Companies’ Environmental Review and Compliance ⁵ (18 CFR Parts 2, 153, 157, and 380) ⁶ .	107	16	1,712	193.52 hours; \$19,932.56	331,306 hours; \$34,124,518 ...	\$318,921
Natural Gas Companies’ Landowner Notifications ⁷ (18 CFR §§ 157(d), 157(f), 2.55(a), 2.55(b), 284.11, and 380.15).	164	144	23,616	2 hours; \$206	47,232 hours; \$4,864,896	\$29,664
Total	25,328	378,538 hours; \$38,989,414

¹ These notifications are sent to affected landowners and are not submitted to FERC. Per 5 CFR 1320.3(c) the definition of “Collection of Information” includes mandated third-party disclosures.

² Burden is defined as the total time, effort, or financial resources expended by persons to

generate, maintain, retain, or disclose or provide information to or for a federal agency. See 5 CFR 1320 (2025) for additional information on the definition of information collection burden.

³ The Commission staff estimates that industry is similarly situated in terms of hourly cost (for wages plus benefits). Based on the Commission’s FY

(Fiscal Year) 2025 average cost (for wages plus benefits), \$103/hour is used.

⁴ FERC has updated this table since the 60-day Federal Register Notice to more clearly describe the relationship between the regulations and the information collection burden.

FERC received one comment on the 60-day **Federal Register** Notice. The commenter requested greater clarification regarding the purpose of the information collection and the specific details about what information is being collected.

FERC included additional information in this notice to describe the need and details of the collection. The commenter also stated that FERC had not mapped information categories to decision outputs and cited 5 CFR 1320.8(b)(1). The commenter incorrectly characterizes this regulation which requires that FERC track its information collections and have an OMB Control Number and Expiration Date. This information is available at <https://www.ferc.gov/information-collections> and also at <https://www.ferc.gov/industries-data/natural-gas/industry-forms>. The commenter also stated that burden and cost methodology was inadequate; however, they did not provide recommendations for how these might IC26-7 be updated. FERC reviewed the burden calculation and corrected the burden to reflect changes incorporated in RM22-8.

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: May 6, 2026.

Debbie-Anne A. Reese,
Secretary.

[FR Doc. 2026-09332 Filed 5-11-26; 8:45 am]

BILLING CODE 6717-01-P

⁵ Number of estimated natural gas companies anticipated to file environmental related information. This is based on previous years responses combined with trend information.

⁶ The 60-day notice correctly said that there are no proposed changes to the information collection. This table has been updated to correct errors so that the burden reflects the burden published in final rule RM22-8 (88 FR 74033)

⁷ Estimated number of Natural Gas Companies subject to FERC's jurisdiction. This figure naturally fluctuates based on changes in the natural gas industry.
