

FERC received one comment on the 60-day **Federal Register** Notice. The commenter requested greater clarification regarding the purpose of the information collection and the specific details about what information is being collected.

FERC included additional information in this notice to describe the need and details of the collection. The commenter also stated that FERC had not mapped information categories to decision outputs and cited 5 CFR 1320.8(b)(1). The commenter incorrectly characterizes this regulation which requires that FERC track its information collections and have an OMB Control Number and Expiration Date. This information is available at <https://www.ferc.gov/information-collections> and also at <https://www.ferc.gov/industries-data/natural-gas/industry-forms>. The commenter also stated that burden and cost methodology was inadequate; however, they did not provide recommendations for how these might IC26-7 be updated. FERC reviewed the burden calculation and corrected the burden to reflect changes incorporated in RM22-8.

*Comments:* Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: May 6, 2026.

**Debbie-Anne A. Reese,**  
Secretary.

**BILLING CODE 6717-01-P**

<sup>5</sup> Number of estimated natural gas companies anticipated to file environmental related information. This is based on previous years responses combined with trend information.

<sup>6</sup> The 60-day notice correctly said that there are no proposed changes to the information collection. This table has been updated to correct errors so that the burden reflects the burden published in final rule RM22-8 (88 FR 74033)

<sup>7</sup> Estimated number of Natural Gas Companies subject to FERC's jurisdiction. This figure naturally fluctuates based on changes in the natural gas industry.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 2513–091]

#### Green Mountain Power Corporation; Notice of Intent To Prepare an Environmental Assessment

On February 28, 2023, Green Mountain Power Corporation (GMP) filed a relicense application for the 8.05-megawatt Essex No. 19 Hydroelectric Project No. 2513. The project is located on the Winooski River in Chittenden County, Vermont.

In accordance with the Commission's regulations, on February 4, 2026, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff

does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an environmental assessment (EA) on the application to relicense the project.<sup>1</sup>

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202)502–6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

The application will be processed according to the following schedule. The EA will be issued for a 30-day comment period. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA.	February 4, 2027.

Any questions regarding this notice may be directed to Joshua Dub by telephone at (202) 502–8138 or by email at [Joshua.Dub@ferc.gov](mailto:Joshua.Dub@ferc.gov).

(Authority: 18 CFR 2.1.)

Dated: May 7, 2026.
