[Project No. 2513–091]

Green Mountain Power Corporation; Notice of Intent To Prepare an Environmental Assessment

On February 28, 2023, Green Mountain Power Corporation (GMP) filed a relicense application for the 8.05-megawatt Essex No. 19 Hydroelectric Project No. 2513. The project is located on the Winooski River in Chittenden County, Vermont.

In accordance with the Commission's regulations, on February 4, 2026, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff

does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an environmental assessment (EA) on the application to relicense the project.¹

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202)502–6595 or OPP@ferc.gov.

The application will be processed according to the following schedule. The EA will be issued for a 30-day comment period. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA.	February 4, 2027.

Any questions regarding this notice may be directed to Joshua Dub by telephone at (202) 502–8138 or by email at Joshua.Dub@ferc.gov.

Federal Energy Regulatory Commission

[Project No. 15249–002]

Lewis Ridge Pumped Storage, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Lewis Ridge Pumped Storage Project, Schedule for Environmental Review, and Request for Comments

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare a draft and final environmental impact statement (EIS) to evaluate potential environmental impacts of the construction, operation, and maintenance of the proposed Lewis Ridge Pumped Storage Project (Lewis Ridge Project; FERC No. 15249), located near the towns of Blackmont, Tejay, Balkan, and Callaway in Bell County, Kentucky.¹ The Commission will use the EIS in its decision-making process in accordance with the National Environmental Policy Act (NEPA). The schedule for preparing the EIS is discussed in the *Schedule for Environmental Review* section of this notice.

As part of the NEPA review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result whenever it considers the issuance of a license. This gathering of public input is referred to as “scoping.” On October 24, 2025, Commission staff issued a notice of scoping period requesting comments on environmental issues for the proposed project, initiating the scoping process for the project.

In accordance with the Commission's regulations, on February 2, 2026, Commission staff issued a notice that the project was ready for environmental analysis and soliciting comments, recommendations, terms and conditions, and prescriptions (REA Notice). The comment period for the REA Notice closed on April 3, 2026. Based on the information in the record, including comments filed during scoping and in response to the REA Notice, staff has determined that licensing the project may constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff will prepare a draft and final EIS for the

proposed Lewis Ridge Project, which will address the concerns raised during prior comment periods and comments received in response to this notice.

By this notice, the Commission requests any additional comments on the scope of issues to address in the EIS, including comments on potential alternatives and impacts, and any relevant information, studies, or analyses of any kind concerning impacts affecting the quality of the human environment. If you previously submitted comments and recommendations to the Commission, you do not need to file those comments and recommendations again. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on June 8, 2026.

Public Participation

There are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676, or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment feature, which is located on the Commission's website (www.ferc.gov) under the link to FERC Online. Using eComment is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to FERC Online. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on “eRegister.” You will be asked to select the type of filing you are making; a comment on a particular project is considered a “Comment on a Filing”; or

(3) You can file a paper copy of your comments by mailing them to the Commission. Be sure to reference the project docket number (P–15249–002) on your letter. Submissions sent via the U.S. Postal Service must be addressed to: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Debbie-Anne A. Reese,
