

Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Mail Stop 9410, Washington, DC 20250-9410; (2) fax: (202) 690-7442; or (3) email: [program.intake@usda.gov](mailto:program.intake@usda.gov).

USDA is an equal opportunity provider, employer, and lender.

Authority: 9 CFR 147.43

Dated: May 12, 2026.

## DEPARTMENT OF COMMERCE

### Census Bureau

#### **Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; The American Community Survey (ACS) and Puerto Rico Community Survey (PRCS)**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested

via the **Federal Register** on December 19, 2025, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

*Agency:* U.S. Census Bureau, Commerce.

*Title:* The American Community Survey and the Puerto Rico Community Survey.

*OMB Control Number:* 0607-0810.

*Form Number(s):* ACS-1, ACS-1(SP), ACS-1(PR), ACS-1(PR)SP, ACS-1(GQ), ACS-1(PR)(GQ), ACS Housing Unit internet questionnaire (no form number), ACS nonresponse follow up CAPI (Computer Assisted Personal Interview) electronic instrument (no form number), ACS Failed Edit Follow up CATI (Computer Assisted Telephone Interview) electronic instrument (no form number), ACS Telephone Questionnaire Assistance CATI electronic instrument (no form number), ACS Group Quarters internet listing instrument (no form number), ACS Group Quarters Facility Questionnaire CAPI electronic instrument (no form number), ACS Group Quarters internet electronic instrument (no form number), ACS Group Quarters Resident CAPI electronic instrument (no form number), and ACS Reinterview CATI/CAPI electronic instrument (no form number).

*Type of Request:* Regular submission. Request for a Revision of a Currently Approved Collection.

*Number of Respondents:* 3,576,000 for household respondents; 20,100 for facility contacts in group quarters; 158,680 people in group quarters; 22,875 households for reinterview; and 1,422 group quarters facility contacts for reinterview. The total estimated number of respondents is 3,779,077.

*Average Hours per Response:* 40 minutes for the average household questionnaire; 15 minutes for a group quarters facility contact questionnaire; 25 minutes for a group quarters person questionnaire; 10 minutes for a household reinterview; 10 minutes for a group quarters facility contact reinterview.

*Burden Hours:* 2,384,000 for household respondents; 5025 for contacts in group quarters; 66,120 for group quarters residents; 3,813 households for reinterview; and 237 group quarters contacts for reinterview. The estimate is an annual average of 2,459,195 burden hours.

*Needs and Uses:* The U.S. Census Bureau requests authorization from the OMB for revisions to the ACS. The ACS is one of the Department of Commerce's most valuable data products, used extensively by businesses, nongovernmental organizations (NGOs), local governments, and many federal

agencies. In conducting this survey, the Census Bureau's top priority is respecting the time and privacy of the people providing information while preserving its value to the public.

In 2027, the ACS plans to introduce an internet self-response option to the Puerto Rico Community Survey (PRCS) data collection operation. The Census Bureau believes there is value in offering an internet self-response option to households and people living in certain types of group quarters—college/university student housing, group homes, military barracks, workers' group living quarters, and emergency and transitional shelters in Puerto Rico.

#### **ACS/PRCS Background**

The Census Bureau developed the ACS/PRCS to collect and update social, economic, housing and demographic data every year that were previously collected once a decade as part of the decennial census. The ACS/PRCS is an ongoing monthly survey that collects detailed housing and socioeconomic data from about 3.54 million addresses in the United States and about 36,000 addresses in Puerto Rico each year. The ACS also collects detailed socioeconomic data from about 158,000 residents living in group quarters facilities in the United States and about 680 in Puerto Rico. The ACS/PRCS is now the only source of comparable data about social, economic, housing, and demographic characteristics for small areas and small subpopulations across the nation and in Puerto Rico. Every community in the nation continues to receive a detailed, statistical portrait of its social, economic, housing, and demographic characteristics each year through one-year and five-year ACS/PRCS products.

#### *ACS Contact Strategies for Housing Units*

To collect ACS data, the Census Bureau uses a well-researched mail contact strategy to encourage self-response to the survey. For addresses that were mailed survey materials but did not respond by mail, internet, or by calling our telephone questionnaire assistance line, the Census Bureau selects a subsample and assigns them to the nonresponse follow-up data collection operation. Unmailable household addresses are sampled and also included in the nonresponse follow-up data collection operation.

To encourage self-response in the ACS, the Census Bureau sends up to five mailings to housing units selected to be in the sample. The first mailing, sent to all mailable addresses in the sample, includes an invitation to

participate in the ACS online and states that a paper questionnaire will be sent in a few weeks to those unable to respond online. The second mailing is a letter that reminds respondents to complete the survey online, thanks them if they have already done so, and informs them that a paper questionnaire will be sent at a later date if the Census Bureau does not receive their response. In a third mailing, the paper questionnaire package is sent only to those sample addresses that have not completed the online questionnaire within two and a half weeks. The fourth mailing is a postcard that reminds respondents to respond and informs them that an interviewer may contact them if they do not complete the survey. A fifth mailing is a letter sent to respondents who have not completed the survey within five weeks. This letter provides a due date and reminds the respondents to complete their survey to be removed from future contact. The Census Bureau will ask those who fill out the survey online to provide an email address, which will be used to send an email reminder to households that started but did not complete the online form. The email reminder asks them to log back in to finish responding to the survey. If the Census Bureau does not receive a response, the address may be selected for nonresponse follow-up data collection. An additional mailing is sent to this sub-sample of addresses to encourage respondents to complete the survey online to avoid an in-person interview. During nonresponse follow-up interviews are collected by a trained Census Bureau interviewer via telephone or personal visit using computer-assisted interviewing technology.

Some addresses are deemed unmaillable because the address is incomplete or directs mail only to a post office box. The Census Bureau currently collects data for these housing units using both online and computer-assisted personal interviewing. A small sample of respondents from the nonresponse follow-up data collection interview are recontacted for quality assurance purposes.

#### *PRCS Contact Strategies for Housing Units*

The Census Bureau sends up to five mailings to a Puerto Rico address selected to be in the sample for the Puerto Rico Community Survey, following a similar methodology as used for the ACS. The first mailing includes an invitation to participate in the PRCS online. The second and fourth mailings serve as a reminder to respond to the survey. The third mailing includes the

paper questionnaire. A fifth mailing is a letter sent to respondents who have not completed the survey within five weeks. This letter provides a due date and reminds the respondents to complete their survey to be removed from future contact. The Census Bureau will ask those who fill out the PRCS online to provide an email address, which will be used to send an email reminder to households that started but did not complete the online form. The reminder asks them to log back in to finish responding to the survey. If the Census Bureau does not receive a response, the address may be selected for nonresponse follow-up data collection. An additional mailing is sent to this sub-sample of addresses to encourage respondents to complete the survey online to avoid an in-person interview. During nonresponse follow-up data collection interviews can be collected by a trained Census Bureau interviewer via telephone or personal visit using computer-assisted interviewing technology.

Puerto Rico addresses that are unmaillable because the address is incomplete or directs mail only to a post office box are collected by computer-assisted personal interviewing. A small sample of respondents from the nonresponse follow-up data collection interview are recontacted for quality assurance purposes.

#### *ACS/PRCS Contact Strategy for Group Quarters*

The Census Bureau collects data for group quarters through personal interview, online, or by paper. The Census Bureau first obtains information about the group quarters facility by allowing the group quarters contact to upload the roster of residents online or by conducting a personal visit interview with a group quarters contact. Once the interviewer obtains the roster of residents, they randomly select residents for person-level interviews. For each sampled resident, a Census Bureau interviewer collects the survey data via a computer-assisted personal interviewing instrument. Interviewers also have the option to distribute a paper questionnaire to residents for self-response. Interviewers may also offer residents in some group quarters facilities (such as college dorms) the option to self-respond to the survey online. A small sample of respondents are recontacted for quality assurance purposes.

Statistics produced from the American Community Survey may include a combination of data collected on the survey from respondents as well

as administrative data from other sources.

*Affected Public:* Individuals or households.

*Frequency:* Monthly.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* Title 13 U.S.C. 141, 193, 221, and 223.

This information collection request may be viewed at [www.reginfo.gov](http://www.reginfo.gov). Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0607–0810.

## **DEPARTMENT OF COMMERCE**

### **Foreign-Trade Zones Board**

[S–253–2026]

#### **Foreign-Trade Zone 18; Application for Subzone Expansion; Tesla, Inc.; Tracy, California**

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the City of San Jose, grantee of FTZ 18, requesting an expansion of Subzone 18G on behalf of Tesa, Inc. in Tracy, California. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on May 12, 2026.

The applicant is now requesting to expand Subzone 18G to include an additional site: Site 27 (25.04 acres)—1150 Arbor Avenue, Suites 100, 101, & 103, Tracy, California. The expanded subzone would be subject to the existing activation limit of FTZ 18.

In accordance with the FTZ Board's regulations, Qahira El-Amin (Federal) of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary.
