FOR FURTHER INFORMATION CONTACT: To request additional information about this information collection request (ICR), contact Margaret Lamont by email at mlamont@usgs.gov, or by telephone at 352-209-4306. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comments addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The order Testudines, which encompasses tortoises and freshwater and marine turtles, is among the most threatened group of vertebrates in the world. However, turtles are frequently observed during everyday activities, such as while walking through a park, driving along a roadway, or kayaking in a river or pond. Local citizen-science projects focused on single species (such as box turtles) have provided valuable demographic information for turtle populations, but these projects are isolated both spatially and specifically (*i.e.*, focused on one species). This project would use sighting information supplied by citizens to fill gaps in our knowledge of turtle distributions throughout Northern Florida. When a citizen observes a turtle, they document the species (if possible), location (latitude/longitude collected via cell phone), date, and time, and they would photograph the animal. We would also ask each contributor to provide their initials (not full name) and a way to contact them if questions about the entry arise (*e.g.*, phone number or email address). The sighting information will be mapped and used to develop species-distribution maps.

L. 104–201, Sept. 23, 1996).

The Army informed the Secretary of the Interior that the extension of the withdrawal is necessary to continue protecting the lands for military readiness purposes as described in the law.

The legal land description and acreage figure described in the Notice of Application for Withdrawal Extension and Opportunity for Public Meeting; Colorado published in the **Federal Register** on June 8, 2011, (76 FR 33353) is revised herein to reflect the BLM Cadastral Survey's Specification for Descriptions of Land. The revised land description does not change the footprint of the lands originally withdrawn by Public Law 104–201, Title XXIX, subtitle A.

SUPPLEMENTARY INFORMATION: The Commission was established by section 103 of Public Law 99–420, as amended, (16 U.S.C. 341 note), and in accordance with the Federal Advisory Committee Act (5 U.S.C. Ch. 10). The Commission advises the Secretary of the Interior (Secretary) and the NPS on matters relating to the management and development of Acadia National Park, including but not limited to, the acquisition of lands and interests in lands (including conservation easements on islands) and the

termination of rights of use and occupancy.

The Commission is composed of 16 members appointed by the Secretary, as follows: (a) three members at large; (b) three members appointed from among individuals recommended by the Governor of Maine; (c) four members appointed from among individuals recommended by each of the four towns on the island of Mount Desert; (d) three members appointed from among individuals recommended by each of the three Hancock County mainland communities of Gouldsboro, Winter Harbor, and Trenton; and (e) three members appointed from among individuals recommended by each of the three island towns of Cranberry Isles, Swans Island, and Frenchboro.

The NPS is seeking nominees to represent nominees in every category. Individuals selected to serve as the members at large will be appointed as special Government employees (SGEs). Individuals selected from the other categories will be appointed as representative members. Nominations received by the park will be sent directly to local municipalities for their consideration. Nominations should be typed and should include a resume providing an adequate description of the nominee's qualifications, including information that would enable the Department of the Interior to make an informed decision regarding meeting the membership requirements of the Commission and permit the Department to contact a potential member. All documentation, including letters of recommendation, must be compiled and submitted in one complete package. All those interested in membership, including current members whose terms are expiring, must follow the same nomination process. Members may not appoint deputies or alternates.
