It may be used to request a change of a station's community of license by AM and non-reserved band FM permittees and licensees. In addition, FM licensees or permittees may request upgrades on adjacent and co-channels, modifications to adjacent channels of the same class, and downgrades to adjacent channels. Needs and Uses: Schedule 340 is used by licensees and permittees to apply for authority to construct a new noncommercial educational (NCE) FM and DTV broadcast station (including a DTS facility), or to make changes in the existing facilities of such a station. Schedule 340 is only used if the station will operate on a channel that is reserved exclusively for NCE use, or in the situation where applications for NCE stations on non-reserved channels are mutually exclusive only with one another. Also, Schedule 340 is used by Native American Tribes and Alaska Native Villages (Tribes), tribal consortia, or entities owned or controlled by Tribes when qualifying for the “Tribal Priority” under 47 CFR 73.7000, 73.7002. Additionally, Schedule 340 contains a third party disclosure requirement, pursuant to § 73.3580. This rule requires local public notice of the filing of all applications to construct a new full-service NCE FM or DTV broadcast station. Notice is given by an NCE applicant by posting notice of the application filing on its station's website, its licensee's website, its parent entity's website, or on a publicly accessible, locally targeted website, for 30 consecutive days beginning within five business days of acceptance of the application for filing. Furthermore, the online notice must link to a copy of the application as filed, either in the station's Online Public Inspection File or in another Commission database. This recordkeeping information collection requirement is contained in OMB Control No. 3060–0214, which covers § 73.3527.
