

investigation, but the producer has been covered in a prior completed segment of this proceeding, then the cash deposit rate will be the rate established in the completed segment for the most recent period for the producer of the merchandise; (4) the cash deposit rate for all other producers or exporters will continue to be 6.05 percent, the all-others rate established in the investigation.¹⁰ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of the countervailing duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

Commerce is issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.221(b)(5).

Dated: May 8, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XF754]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will convene a joint webinar meeting of the Groundfish Management Team (GMT) and its Groundfish Advisory Subpanel (GAP), and a second meeting of the GMT. The GMT and the GAP will discuss items on the Pacific Council's June 2026 meeting agenda and other items. These meetings are open to the public.

DATES: The GAP and GMT joint online meeting will be held on Wednesday, June 3, 2026, from 12 p.m. to 4 p.m. Pacific Time. The GMT online meeting will be held on Friday, June 5, 2026 from 12 p.m. to 4 p.m. Pacific Time. The scheduled ending times for these meetings are an estimate. The meetings will adjourn when business for the day is completed.

ADDRESSES: These meetings will be held online. Specific meeting information, including directions on how to attend the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Hayden York (hayden.york@pcouncil.org) or contact him at (503) 820–2424 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220–1384.

FOR FURTHER INFORMATION CONTACT: Jessi Waller, Staff Officer, Pacific Council; jessi.waller@pcouncil.org, telephone: (503) 820–2415.

SUPPLEMENTARY INFORMATION: The primary purpose of the GMT and GAP webinars is to prepare for the Pacific Council's June 2026 meeting agenda items. These meetings are expected to focus on groundfish agenda items, including stock assessment process review and proposed process revisions and inseason management.

A detailed agenda for each webinar will be available on the Pacific Council's website prior to the meeting. The GMT and GAP may also address other assignments relating to groundfish management. No management actions will be decided by the GMT and GAP.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Hayden York (hayden.york@pcouncil.org; (503) 820–2424) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 12, 2026.

Key Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Center of Independent Experts (CIE) review of the Eastern Bering Sea Tanner crab stock assessment will be held June 9, 2026, through June 11, 2026.

DATES: The meeting will be held on June 9, 2026, through June 11, 2026,

¹⁰ See Order, 81 FR at 67963, 67965.

inclusive, from 9 a.m. to 4 p.m. Pacific Time.

ADDRESSES: The meeting will be in-person only and will be held in conference room 2079 at the Alaska Fishery Science Center, Sand Point Way, NE, Building 4, Seattle, WA 98115. If you plan to attend, you need to notify Cody Szuwalski (cody.szuwalski@noaa.gov) at least 2 days prior to the meeting (or 2 weeks prior if you are a foreign national). You will also need a valid U.S. Identification Card.

FOR FURTHER INFORMATION CONTACT: Cody Szuwalski, Alaska Fishery Science Center staff; email: cody.szuwalski@noaa.gov.

SUPPLEMENTARY INFORMATION:

Agenda

Tuesday, June 9, 2026, Through Friday, June 11, 2026

The CIE will review the eastern Bering Sea Tanner crab stock assessment. The agenda is subject to change, and the latest version and meeting materials will be posted at https://github.com/noaa-afsc/TannerCrab_2026CIEReview.

(Authority: 16 U.S.C. 1801 *et seq.*)

Dated: May 12, 2026.

National Oceanic and Atmospheric Administration

[Docket No. 260512-0129; RTID 0648-XR135]

Endangered and Threatened Wildlife and Plants; Notice of 12-Month Finding on a Petition to List Gulf of Alaska Chinook Salmon as Threatened or Endangered Under the Endangered Species Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of 12-month petition finding.

SUMMARY: We, NMFS, announce a 12-month finding on a petition to list one or more Evolutionarily Significant Units (ESUs) of Gulf of Alaska (GOA) Chinook salmon (*Oncorhynchus tshawytscha*) as threatened or endangered under the Endangered Species Act (ESA). In

response to the petition submitted by Wild Fish Conservancy, the Status Review Team (SRT) completed a review of the status of GOA Chinook salmon and defined three ESUs for GOA Chinook salmon (Southeast, Central, and Northwest GOA). Based on the best scientific and commercial data available, including the Status Review Report written by the SRT, we conclude that the three ESUs of GOA Chinook salmon are not currently in danger of extinction throughout all or a significant portion of their ranges nor likely to become so within the foreseeable future. Therefore, we find that listing any of the ESUs of GOA Chinook salmon under the ESA is not warranted at this time.

DATES: This finding was made available on May 14, 2026.

ADDRESSES: The petition, Status Review Report, **Federal Register** notices, and the list of references can be accessed electronically online at: <https://www.fisheries.noaa.gov/species/Chinook-salmon-protected#conservation-management>.

The peer review report is available online at: <https://www.noaa.gov/information-technology/biological-status-of-gulf-of-alaska-chinook-salmon>.

FOR FURTHER INFORMATION CONTACT:

Anne Marie Eich, NMFS Alaska Region, annemarie.eich@noaa.gov; or Heather Austin, NMFS Office of Protected Resources, at heather.austin@noaa.gov, (301) 427-8422.

SUPPLEMENTARY INFORMATION:

Background

On January 11, 2024, we received a petition from the Wild Fish Conservancy to delineate and list one or more ESUs of Chinook salmon in southern Alaska, which the petition stated “encompasses all Chinook populations that enter the marine environment of the Gulf of Alaska,” as threatened or endangered under the ESA, and to designate critical habitat concurrently with the listing. The petition indicated that this “includes all populations on the southern side of the Aleutian Peninsula, Cook Inlet, and the coast of Alaska south of Cook Inlet to the southern end of the Alaska/British Columbia border,” hereafter referred to as GOA Chinook salmon. The petition asserted that GOA Chinook salmon are threatened by all of the ESA section 4(a)(1) factors: (A) the present or threatened destruction, modification, or curtailment of habitat or range; (B) overutilization for commercial, recreational, scientific, or educational purposes; (C) disease or predation; (D) the inadequacy of existing regulatory mechanisms to address identified

threats; and (E) other natural or manmade factors affecting its continued existence (16 U.S.C. 1533(a)(1), 50 CFR 424.11(c)). The petition is available online (see **ADDRESSES**).

On May 24, 2024, NMFS published a 90-day finding that the petition, viewed in the context of information readily available in our files, presented substantial scientific and commercial information indicating the petitioned action may be warranted (89 FR 45815). NMFS also announced the initiation of a status review of GOA Chinook salmon, as required by section 4(b)(3)(A) of the ESA, and opened a 60-day comment period to solicit pertinent information to inform the status review. In response to public requests, NMFS extended the comment period an additional 45 days (89 FR 53936, June 28, 2024). We received information from the public in response to the 90-day finding. Additionally, information gathered from Tribal participants during Tribal Consultations and Subsistence Regional Advisory Council meetings informed our analyses. All relevant information was incorporated into the Status Review Report (GOA Chinook SRT 2026; available electronically (see **ADDRESSES**)) and this 12-month finding.

Listing Determinations Under the ESA

NMFS is responsible for determining whether a species under our jurisdiction meets the definition of threatened or endangered under the ESA (16 U.S.C. 1531 *et seq.*). To make this determination, we first consider whether a group of organisms constitutes a species under section 3 of the ESA, then whether the status of the species qualifies it for listing as either threatened or endangered. Section 3 of the ESA defines species to include “any subspecies of fish or wildlife or plants, and any distinct population segment of any species of vertebrate fish or wildlife which interbreeds when mature” (16 U.S.C. 1532(16)). In 1991, we issued the Policy on Applying the Definition of Species Under the ESA to Pacific Salmon (ESU Policy; 56 FR 58612, November 20, 1991). Under the ESU Policy, a Pacific salmon population is a distinct population segment (DPS), and hence a species under the ESA, if it represents an evolutionarily significant unit (ESU) of the biological species. Under this policy, a Pacific salmon population unit must satisfy two criteria to be considered an ESU: (1) it must be substantially reproductively isolated from other conspecific population units, and (2) it must represent an important component in the evolutionary legacy of the species. The first criterion, reproductive isolation, need not be
