BILLING CODE 4410-PB-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Modification Under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)

On May 12, 2026, the Department of Justice lodged a proposed Consent Decree Modification with the United States District Court for the Western District of Michigan in the lawsuit entitled *United States of America v. Robert Bosch Corp.*, Civil Action No. 1:99-CV-414.

The proposed Modification makes certain changes to a 1999 Consent Decree between the parties. That Decree required the defendant (“Bosch”) to pay a portion of the United States’ response costs incurred responding to the release or threat of release of hazardous substances at the Bendix Corp./Allied Automotive Superfund Site in St. Joseph, Michigan and to perform the remedial action that EPA selected for the Site. The Decree capped Bosch’s liability for reimbursement of EPA’s future oversight costs. The proposed Consent Decree Modification removes the Decree’s cap on Bosch’s future oversight cost liability and recovers a portion of past response costs incurred by EPA at the Site. In return, the United States agrees not to assess stipulated or civil penalties for Bosch’s alleged violations of the Decree.

The publication of this notice opens a period for public comment on the Consent Decree Modification. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States of America v. Robert Bosch Corp.*, D.J. Ref. FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202-693-0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The respondents for the paperwork provisions of this rule are underground mine operators. The records will be

used by mine operators, supervisors, and employees, and State and Federal mine inspectors to provide assurance that each mine operator and mine rescue team is prepared for a mine emergency. The records show that the mine rescue team equipment has been examined and tested and is in good working order. The training records show that the mine rescue team members and responsible persons at the mine are competent to respond to a mine emergency involving a fire, an explosion, or a gas or water inundation. The records greatly assist those who use them in making decisions that will ultimately affect the safety of all persons working underground. These information collection requirements help assure that properly trained mine rescue teams are readily available to save endangered miners in life-threatening situations. In addition, the training requirements in this information collection will help assure the safety of the mine rescue team itself.
