**FOR FURTHER INFORMATION CONTACT:** Alexa Webb, Senior Public Utilities Specialist, Finance and Marketing, Southeastern Power Administration, Department of Energy, 1166 Athens Tech Road, Elberton, Georgia 30635–6711, (706) 213–3805; Email: [Alexa.Webb@sepa.doe.gov](mailto:Alexa.Webb@sepa.doe.gov).

**SUPPLEMENTARY INFORMATION:** The Federal Energy Regulatory Commission (FERC) confirmed and approved on a final basis, Wholesale Power Rate Schedules JW–1–L and JW–2–F applicable to the Jim Woodruff System for a period ending September 30, 2026. (FERC Docket No. EF21–4–000 (Feb. 10, 2022)). On August 6, 2024, Southeastern submitted a notice of cancellation of the JW–2–F Rate Schedule for the sale of power from Southeastern's Jim Woodruff Project to Duke Energy Florida effective October 6, 2024. There are no remaining obligations under the JW–2–F Rate schedule. (FERC Docket No. EF24–8–000 (Sep. 13, 2024)).

*Discussion:* Existing rate schedules are predicated upon a February 2021 repayment study and other supporting data. An updated repayment study, dated March 2026, indicates current rates are not adequate to recover cost increases identified and therefore do not meet repayment criteria. The revised study demonstrates an annual revenue requirement increase of \$545,128 per year from preference customers will meet repayment criteria. The rate adjustment would represent an increase of about 6.6 percent for capacity and 10.8 percent for energy.

*Proposed Unit Rates:* In the proposed rate schedule JW–1–M, available to preference customers, the capacity charge would be increased from \$8.46 per kilowatt per month to \$9.02 per kilowatt per month. The energy charge would be increased from 22.32 mills per kilowatt-hour to 24.72 mills per kilowatt-hour. Should Southeastern procure power on behalf of a preference customer, the customer would be subject to the cost of the purchased power in addition to the applicable capacity and energy charges.

Southeastern is proposing the following rate schedule, JW–1–M, to be effective for the period from October 1, 2026, through September 30, 2031.

*Legal Authority:* By Delegation Order No. S1–DEL–RATES–2016, effective November 19, 2016, the Secretary of Energy delegated: (1) the authority to develop power and transmission rates to Southeastern's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis

to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, or to remand or disapprove such rates, to FERC. By Delegation Order No. S1–DEL–S3–2024, effective August 30, 2024, the Secretary of Energy also delegated the authority to confirm, approve, and place such rates into effect on an interim basis to the Under Secretary for Infrastructure. By Redelegation Order No. S3–DEL–SEPA–2023, effective April 10, 2023, the Under Secretary for Infrastructure redelegated the authority to confirm, approve, and place such rates into effect on an interim basis to the Southeastern Administrator.

**Environmental Compliance:** Southeastern has determined this action fits within the following categorical exclusion listed in appendix B of 10 CFR part 1021 and appendix B of DOE's National Environmental Policy Act (NEPA) implementing procedures published on June 30, 2025: B4.3, Electric power marketing rate changes. Categorically excluded projects and activities do not require preparation of either an environmental impact statement or an environmental assessment.<sup>1</sup>

**Determination Under Executive Order 12866:** Southeastern has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.
