I. Background

MAC has been re-established under the Infrastructure Investment and Jobs Act (IIJA), (Pub. L. 117-58) (codified at

49 U.S.C. 355). In accordance with Section 24111 of IIJA, the Secretary of Transportation is required to establish a MAC comprised of 13 members to advise on transportation safety issues of concern to motorcyclists, including:

1. Motorcycle and motorcyclist safety;
2. Barrier and road design, construction, and maintenance practices; and
3. The architecture and implementation of intelligent transportation system technologies.

The purposes of the MAC are: (a) to provide advice on transportation safety issues of concern to motorcyclists consistent with the Council's statutorily specified advising duties; (b) to provide a forum for the development, consideration, and communication of information from a knowledgeable and independent perspective; and (c) not later than October 31 of the calendar year following the calendar year in which the Council is established, and not less than once every 2 years thereafter, to submit to the Secretary a report containing recommendations of the Council regarding (1) motorcycle and motorcyclist safety; (2) barrier and road design, construction, and maintenance practices; and (3) the architecture and implementation of intelligent transportation system technologies.

The last appointments of a previous version of the MAC were in 2017, in accordance with the provisions of the Fixing America's Surface Transportation (FAST) Act, Section 1426. The 2017 MAC was established to advise the Federal Highway Administration (FHWA) on infrastructure recommendations. The Council accomplished this purpose by conducting five committee meetings focused on infrastructure issues that directly affected motorcyclists. On March 11, 2020, the 2017 MAC issued a final report to FHWA that included infrastructure recommendations. After receiving the MAC's recommendations, FHWA initiated a motorcyclist safety project to identify implementation and research needs, appropriate strategies, and corresponding projects. In October 2020, the 2017 MAC was terminated.
