

III. Opportunity To Comment

The NRC is providing notice of the receipt of the application and the request for consent to the indirect transfer of control and is providing the opportunity to submit written comments concerning the actions in this notice. Within 30 days from the date of publication of this notice, persons may submit written comments regarding the name change and the indirect license transfer of control, as provided in section 110.81 of title 10 of the *Code of Federal Regulations* (10 CFR). The NRC will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted as described in the “Addresses” section of this notice.

IV. Opportunity To Request a Hearing and Petition for Leave to Intervene

Within 30 days after the date of publication of this notice any person

may file a request for a hearing or petition for leave to intervene with respect to the actions in this notice. A hearing request or intervention petition must include the information specified in 10 CFR 110.82(b). Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner in accordance with 10 CFR 110.89(a), either by delivery, by mail, or filed with the NRC electronically in accordance with the NRC’s E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). Detailed guidance on electronic submissions may be found in the “Guidance for Electronic Submissions to the NRC” (ADAMS Accession No. ML13031A056) and on the NRC’s public website (<https://www.nrc.gov/site-help/e-submittals.html>).

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of

the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

NUCLEAR REGULATORY COMMISSION

In the Matter of Kairos Power LLC (Hermes Test Reactor Facility)
Docket No. 50-7513
Construction Permit No. CPTR-6

Order

I.

Kairos Power LLC (Kairos, licensee, permit holder) is the holder of Construction Permit (CP) No. CPTR-6, which the U.S. Nuclear Regulatory Commission (NRC, the Commission) issued on December 14, 2023 (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML23338A260), for the construction of the Hermes test reactor facility in Oak Ridge, Tennessee. CP No. CPTR-6 includes December 31, 2026, as the latest date for completion of the construction of the Hermes test reactor facility and expires on the latest date of completion. The Hermes test reactor facility is currently under construction.

By letter dated March 24, 2026 (ML26083A275), Kairos submitted to the NRC a license amendment request in accordance with section 50.90, "Application for amendment of license, construction permit, or early site permit," of title 10 of the *Code of Federal Regulations* (10 CFR) and 10 CFR 50.55(b). The license amendment request seeks to extend the latest date for completion of the construction of the Hermes test reactor facility from December 31, 2026, to April 30, 2029.

II.

Upon review of the license amendment request, the NRC staff determined that Kairos had shown good cause for extending the latest date for completion of the construction of the Hermes test reactor facility from December 31, 2026, to April 30, 2029. The staff also determined that the license amendment request involves no significant hazards consideration. The staff prepared an environmental assessment and finding of no significant impact for the requested extension of the latest date for completion of construction and published it in the **Federal Register** on April 21, 2026 (91 FR 21335). On the basis of the environmental assessment, the staff concluded that the requested extension will not have a significant effect on the quality of the human environment. The findings set forth above are supported by an NRC staff safety evaluation dated May 13, 2026, which is available at ML26085A103.

III.

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. The scope of this order extending the latest date for completion of construction and any proceeding hereunder is limited to direct challenges to the CP holder's asserted reasons that show good cause for the extension. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing
