### SUPPLEMENTARY INFORMATION:

#### I. Abstract

Based on continued user feedback provided during operations of the NASA STEM Gateway (Universal Registration and Data Management System) and increased utilization,

NASA plans to develop updates/enhancements to improve information collected in compliance with policy guidance and the overall user experience in the NASA STEM Gateway. The NASA STEM Gateway (Universal Registration and Data Management System) is a comprehensive tool designed to allow learners (*i.e.*, students, educators, non-students or educators, and awardee principal investigators) to apply to NASA STEM engagement opportunities (*e.g.*, internships, fellowships, challenges, educator professional development, experiential learning activities, etc.) in a single location. NASA personnel manage the selection of applicants and implementation of engagement opportunities within the NASA STEM Gateway. The information collected will be used by the NASA Office of STEM Engagement (OSTEM) and other NASA offices to review applications for participation in NASA STEM engagement opportunities. The information is reviewed by OSTEM project and activity managers, as well as NASA mentors who would be hosting students. This information collection will consist of profile information (*e.g.*, name, contact information, citizenship, education or affiliate organization, etc.) and the NASA STEM Engagement opportunity application information. In addition to supporting applicant review and participant selection, individual learner profile data will enable NASA OSTEM to fulfill federally mandated reporting on its STEM engagement activities and report relevant participant information as needed for Agency performance goals and success criteria (annual performance indicators).
