

process for interconnected Voice over internet Protocol (VoIP) providers which allows them to apply for the VoIP Numbering Authorization (Authorization) from the FCC that, once granted, permits them to obtain numbering resources directly from the Numbering Administrators. The FCC revised the Authorization process for applicants in the September 2023 Second Report and Order (FCC 23–75), and for existing authorization holders—that is, those interconnected VoIP providers that received their Authorization prior to August 8, 2024 (the effective date of the rules adopted in the Second Report and Order) in the December 2025 Third Report and Order (FCC 25–86). This collection covers the information and certifications that applicants and existing authorization holders must submit in order to comply with the Authorization process. The data, information, and documents acquired through this collection will allow interconnected VoIP providers to obtain numbers with minimal burden or delay while also preventing providers from obtaining numbers without first demonstrating that they can deploy and properly utilize such resources. This collection will also ensure that existing authorization holders comply with the necessary safeguards in order to maintain their Authorization. The revisions to this information collection are necessary to further stem the tide of illegal robocalls perpetrated by interconnected VoIP providers, protect the nation's numbering resources from abuse by foreign bad actors, advance important public safety and national security objectives tied to the use of our nation's limited numbering resources, and ensure compliance with other important FCC rules.
