## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and approval under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by May 18, 2026. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

### National Agricultural Statistics Service

*Title:* Agricultural Resource Management Phase 3 Economic Surveys.

*OMB Control Number:* 0535–0275.

*Summary of Collection:* The Agricultural Resource Management Surveys (ARMS) are the primary source of information for the U.S. Department of Agriculture on a broad range of issues related to production practices, costs and returns, and contractor expenses. Data are collected at both the whole-farm level and for selected commodities.

Data from ARMS are used to produce estimates of net farm income by type of commercial producer as required in 7 U.S.C. 7998, as amended, and estimates of enterprise production costs as required in 7 U.S.C. 1441(a), as amended. ARMS data are also used to develop the Prices Paid Index, a component of the Parity Index referenced in the Agricultural Adjustment Act of 1938, as amended. These indexes are used to calculate the annual federal grazing fee rates under the Public Rangelands Improvement Act of 1978 and Executive Order 12548, and as promulgated in regulations at 36 CFR 222.51, as amended. The National Agricultural Statistics Service (NASS) is requesting a three-year renewal for continued authority to conduct the Agricultural Resources Management Survey (ARMS) Phase 3 survey.

*Need and Use of the Information:* The ARMS Phase 3 Economic Surveys are the only annual source of information available for objective evaluation of many critical issues related to agriculture and the rural economy. These include annual whole-farm financial data sufficient to estimate income by type of operation, loan commodities, operator household income, credit, farm structure and organization; as well as marketing information and other economic data related to input usage, production practices, and crop substitution possibilities.

*Description of Respondents:* Farms; Business or other for-profit

*Number of Respondents:* An average of 49,417 annually.

*Frequency of Responses:* Reporting: Annually.

*Total Burden Hours:* An average of 76,175 annually.

### Food and Nutrition Service

#### Agency Information Collection

#### Activities: Proposed Collection; Comment Request—Supplemental Nutrition Assistance Program (SNAP) Form FNS–380, Worksheet for Quality Control Reviews

**AGENCY:** Food and Nutrition Service (FNS), USDA.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice invites the public to comment on this proposed information collection. This collection is a reinstatement with revision of a currently expired information collection. This information collection, the FNS–380, Worksheet for Quality Control Reviews, is a form designed to collect quality control (QC) data and serve as the data entry form for QC case reviews in the active sampling frame for the Supplemental Nutrition Assistance Program (SNAP). Revisions to the form, its instructions, and burden hours are within.

**DATES:** Written comments must be received on or before July 17, 2026.

**ADDRESSES:** Comments may be sent to: John McCleskey, QC Branch Chief, Food and Nutrition Service, U.S. Department of Agriculture, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314. Comments may also be submitted to [SM.FN.SNAPQCRules-ICR@usda.gov](mailto:SM.FN.SNAPQCRules-ICR@usda.gov) or may also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will be a matter of public record.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of this information collection

should be directed to John McCleskey at 703-457-7747.

**SUPPLEMENTARY INFORMATION:** *Comments are invited on:* (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

*Title:* Worksheet for Supplemental Nutrition Assistance Program Quality Control Reviews

*Form Number:* FNS-380

*OMB Control Number:* 0584-0074

*Expiration Date:* July 31, 2025

*Type of Request:* Reinstatement with a revision of an expired information collection.

*Abstract:* Section 16 of the Food and Nutrition Act of 2008, as amended, (the Act) provides the legislative basis for the operation of the QC system. Part 275, Subpart C, of SNAP regulations implements the legislative mandates found in Section 16. Regulations at 7 CFR 275.1, 275.14(d) and 275.21(a) and (b)(1) provide the regulatory basis for the QC reporting requirements.

Section 11(a) of the Act provides the legislative basis for the recordkeeping requirements. SNAP regulations, at 7 CFR 272.1(f)(1), specify that program records must be retained for three years from fiscal closure. Regulations at 7 CFR 275.4 specifically address the record retention requirement for form FNS-380.

Form FNS-380 is a SNAP worksheet used to determine eligibility and benefits for households selected for QC review in the active sampling frame—see 7 CFR 275.11(e)(1). The form provides a systematic means of aiding State QC reviewers in analyzing a SNAP household's case record (7 CFR

275.12(b)), planning and conducting a field investigation (7 CFR 275.12(c)), as well as gathering, comparing, analyzing, and evaluating the information from both (7 CFR 275.12(d) and (e)).

SNAP estimates the total reporting burden for this information collection is 414,216 hours. *These hours include approximately:* (1) 139,254 hours for reviewing a SNAP household's case record, an increase of 2,763.63 hours; (2) 162,463 hours for conducting the field investigation, an increase of 3,224.24 hours; (3) 23,209 hours to meet with 46,418 households for a QC interview, an increase of 460.61 hours; (4) zero hours for notification to discuss individual cases, a decrease of .4 hour; (5) 41,776.20 hours to identify variances in the case review, an increase of 829.09 hours; and (6) 23,209 hours to do an error analysis of the case, an increase of 460.61 hours for State agencies. The total also includes approximately 23,209 burden hours for 46,418 individual households to be interviewed by State agencies, an increase of 460.50 hours.

SNAP estimates a total State agency annual recordkeeping burden of 1,095.47 hours, an increase of 21.74 hours from the previous submission. SNAP estimates the grand total reporting and recordkeeping burden for this collection as approximately 414,216 hours, an increase of 8,220 hours. SNAP also estimates an annual total of 278,508 responses for State agencies and 46,418 responses for households for this information collection.

*Updates to the FNS 380 form include:* (1) in Section A, the addition of a row to identify the type of conferral used for categorical eligibility; (2) in Section C of the face sheet, replacement of the social security number field with an email address field; (3) a new Section E, for a case review narrative summary; (4) renaming the worksheet narrative to be Section F; (5) removal of all existing bold sub headers from the elements list; (6) specification that element 212 includes non-substantial lottery or gambling winnings; (7) adding a row for element 214—substantial lottery and gambling winnings; (8) addition of a row for new element 362—homeless shelter deduction; (9) addition of a row for new element 540—missing reports; and (10) addition of a row for new

element 542—expired certification periods.

*Updates to the instructions for form FNS 380 include:* (1) instructions for new section E—case review narrative summary; (2) revised introductory instructions for new section F; and (3) revised formatting for the instructions for section F and the computation sheets.

Based on fiscal year 2024 complete active case sample sizes available, SNAP estimates 46,418 FNS-380 worksheets and interviews will be completed annually for the active sampling frame. SNAP is requesting a three-year approval from OMB for this information collection. Below is a list of the burden associated with this information collection as well as a table with details on its makeup.

**Forest Service**

**Newspapers Used for Publication of Legal Notices by the Alaska, Pacific Northwest, and Pacific Southwest Regions, Alaska, California, Oregon, Washington, and Parts of Idaho and Nevada**

**AGENCY:** Forest Service, Agriculture (USDA).

**ACTION:** Notice of newspapers of record.

**SUMMARY:** This notice lists the newspapers that will be used by ranger districts, national forests and grasslands, and the regional offices of the Alaska, Pacific Northwest, and Pacific Southwest Regions to publish legal notices. The intended effect of this action is to inform interested members of the public which newspapers the Forest Service will use to publish notices of proposed actions, notices of decision, and notices of opportunity to file an objection. This will provide the public with constructive notice of Forest Service proposals and decisions, provide information on the procedures to comment or object, and establish the date that the Forest Service will use to determine if comments or objections were timely.

**DATES:** Publication of legal notices in the listed newspapers will begin on the date of this publication and continue until further notice.

**ADDRESSES:** Sasha Bertel, Regional Environmental Coordinator, Pacific Northwest Region, 1220 Southwest Third Avenue, Portland, OR 97204.
