SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C., chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the

Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, USCG–2025–0344, and must be received by June 22, 2026.

An OMB Notice of Action on each ICR will become available via a hyperlink in the OMB Control Number: 1625–0040.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The Coast Guard published the 60-day notice (90 FR 55147, December 1, 2025) required by 44 U.S.C. 3506(c)(2). That notice elicited no comments. However, the Coast Guard is making one change to the Collection to the Section III title of the Small Vessel Sea Service Form CG–719S. . Prior to publication of the

60-day FRN, the Coast Guard received requests for clarification on the determination of sea service in relation to underway time versus dockside time. The 60-day notice had the Small Vessel Sea Service Form CG-719S Section III title as "Record of Underway Service." The Section III title has been updated to "Record of Service" to limit the perceived restriction of this section to only underway service when in specific circumstances dockside time may also be included.

Information Collection Request

Title: Applications for Merchant Mariner Credentials and Medical Certificates.

OMB Control Number: 1625-0040.

Summary: This information is necessary to determine competency, character and physical qualifications for the issuance of a Merchant Mariner Credential (MMC) or Medical Certificate.

Need: 46 CFR parts 10-13 and 16 detail the requirements for the issuance of an MMC or Medical Certificate.

Forms: • CG-718A, Certificate of Discharge to Merchant Mariner.

• CG-719B, Application for Merchant Mariner Credential.

• CG-719C, Disclosure Statement for Narcotics, DWI/DUI, and/or Other Convictions.

• CG-719D, Application for Duplicate Merchant Mariner Credential and Medical Certificate.

• CG-719K, Application for Medical Certificate.

• CG-719K/E, Application for Medical Certificate, Short Form.

• CG-719P, DOT/USCG Periodic Drug Testing Form.

• CG-719S, Small Vessel Sea Service Form.

Basis for the change to the Forms: The majority of changes to the forms in this collection are not associated with new statutory or regulatory authority, but rather improvements to the flow and quality of content, user functionality, and to aid the Coast Guard in processing applications. The forms have undergone significant reorganization in response to recommendations from the National Merchant Mariner Medical Advisory Committee (NMEDMAC), the National Merchant Marine Personnel Advisory Committee (NMERPAC), and comments from the public provided at the NMEDMAC and NMERPAC public meetings. As an example, the wording, location and specificity of form instructions were revised to provide better clarity and to improve ease of use. Key instructions are now located within the corresponding section of the form to reduce the need for mariner applicants

to flip back and forth between pages to search for instructions. This improvement is also expected to reduce processing delays caused by submission of incomplete forms. Another improvement is that these forms will now provide an option for applicants to sign the forms using an electronic signature. Finally, additional language was added to Criminal Record Review section of the CG-719B to clarify that mariners must disclose all convictions, including convictions for boating safety crimes. Additionally, for applicants without convictions who have used or been addicted to dangerous drugs, the CG-719B form now provides a place for them to list the drugs used without having to fill out a CG-719C.

Basis for the change for the addition of Forms to this collection: First, the Coast Guard is proposing to add a new optional form, the CG-719D, to provide a convenient option for individuals who want to request a duplicate merchant mariner credential or duplicate medical certificate. Second, the Coast Guard seeks comments on adding form CG-718A "Certificate of Discharge to Merchant Mariner" into this collection. Coast Guard personnel use form CG-718A to evaluate an applicant for an MMC. Form CG-718A was previously accounted for under OMB Control Number 1625-0012.

Respondents: Applicants for MMC, whether original, renewal, duplicate, raise of grade, or a new endorsement on a previously issued MMC. Applicants for Medical Certificates to include National and STCW credentialed mariners, and first-class pilots.

Frequency: On occasion.

Hour Burden Estimate: The estimated burden has decreased from 62,006 hours to 57,333 hours a year; due to a decrease in the estimated annual number of responses.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: May 13, 2026.

Chief, Office of Privacy Management, U.S. Coast Guard.
