

believe that as a result of such transaction the Options Participant or its customer would, acting alone or in concert with others, directly or indirectly exceed the applicable position or exercise limit fixed from time to time by the Cboe for any options contract traded on NTX Options and Cboe. The Exchange notes that Cboe's position and exercise limit rules currently provide that SPY options shall have a position limit and exercise limit of 3,600,000 contracts on the same side of the market.⁶ Therefore, the Exchange proposes to remove the rule text referencing the position and exercise limits of 3,600,000 contracts for SPY options because they are unnecessary.

The amendment to Options 6C, Section 3 to update Cboe's name is a non-substantive amendment.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange's proposal to remove rule text in Options 9, Section 13(a) and Options 9, Section 15(a) regarding the position and exercise limit for SPY Options and amend Cboe's name in Options 6C, Section 3 does not burden intra-market competition because the amendments are non-substantive. Further, the Exchange does not believe that the proposed amendments will impose any burden on inter-market competition because the proposed position and exercise limits, as amended, continue to align with the rules of other options exchanges. Also, the proposed name change at Options 6C, Section 3 conforms to Cboe's current name and is non-substantive.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has

become effective pursuant to Section 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6) thereunder.⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

⁸ 17 CFR 240.19b-4(f)(6). Agency Information Collection Activities: Comment Request

The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. This notice includes revisions of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency’s burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and ways to

minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations on the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers.

(OMB) Office of Management and Budget, Attn: Desk Officer for SSA (SSA) Social Security Administration, OLCA, Attn: Reports Clearance Director, Mail Stop 3253 Altmeyer, 6401 Security Blvd., Baltimore, MD 21235, Fax: 833-410-1631, Email address: *OR.Reports.Clearance@ssa.gov*

Or you may submit your comments online through <https://www.reginfo.gov/public/do/PRAMain> by clicking on Currently under Review—Open for Public Comments and choosing to click on one of SSA’s published items. Please reference Docket ID Number [SSA-2026-0496] in your submitted response.

SSA submitted the information collections below to OMB for clearance. Your comments regarding these information collections would be most

useful if OMB and SSA receive them 30 days from the date of this publication. To be sure we consider your comments, we must receive them no later than June 22, 2026. Individuals can obtain copies of this OMB clearance package by writing to the *OR.Reports.Clearance@ssa.gov*.

1. *Request for Corrections of Earnings Record—20 CFR 404.820 and 20 CFR 422.125—0960-0029.* Individuals alleging that SSA’s files contain inaccurate earnings records for them use paper Form SSA-7008, or a personal interview with SSA employees during which SSA employees key their answers into our electronic Earnings Modernization Item Correction system, to address the situation. Using these modalities the individuals whose records are in question provide the information SSA needs to check earnings posted, and, as necessary, initiate development to resolve any inaccuracies. The respondents are individuals who request correction of earnings posted to their Social Security earnings records.

Type of Request: Revision of an OMB-approved information collection.

*We based this figure on the average U.S. worker’s hourly wages, as reported by Bureau of Labor Statistics data (*Occupational Employment and Wage Statistics*).

**We based this figure on the average combined FY 2026 wait times for field offices (22 minutes) and for teleservice centers (48 minutes which includes the average speed of answer of 7 minutes as well as the average 41-minute wait time for a call back from an SSA technician), based on SSA’s current management information data. This figure reflects both data from our systems and the data posted on our public facing website (Social Security performance | SSA) on the date we drafted this document. As the figures fluctuate daily, the wait times may be different on the website than they appear here. We continue to monitor our website and management information data on call back times to ensure we report updated figures when possible.

***This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this application; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the application. *There is no actual charge to respondents to complete the application.*

2. *Application for Supplemental Security Income (Deferred or Abbreviated)—20 CFR 416.305-416.335, Subpart C—0960-0444.* SSA provides Supplemental Security Income (SSI) payments to members of the public who meet the required eligibility criteria and who file the prescribed application. SSA uses Form SSA-8001-BK, Application for SSI (Deferred or Abbreviated), to collect information from respondents to either: (1) provide a formal determination of ineligibility based on non-medical reasons only, or (2) document allegations of potential eligibility prior to requesting a medical determination from the state disability determination services (DDS) while

deferring the collection of additional information until after the DDS approves a medical determination. Respondents apply for SSI using the deferred application through one of three modalities: (1) a paper application for both adult and child claims (Form SSA-8001), which the public can access as a fillable PDF from our website and submit through SSA’s Upload Documents Portal (OMB Control No. 0960-0830); (2) a field office interview (in person or over the phone), during which an SSA employee enters applicant data directly into the Consolidated Claim Experience (CCE) and Intranet SSI Claims System screens; or (3) the iSSI internet application, basic

eligibility questions (within the internet Claims (iClaim site)). SSI applicants can also use a simplified online hybrid approach that streamlines and simplifies the online application form and the modalities we offer across other service channels (*i.e.*, phone and in-person interviews). In this hybrid approach, we (1) capture the claimant’s basic eligibility with a simplified application, and (2) use a technician-supported experience to develop additional information as necessary to make an initial determination. This second step only happens after we provide medical approval and identify the specific additional information needed. This approach strikes a balance
