SUPPLEMENTARY INFORMATION:

I. Background

The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Black Lung Benefits Act, 30 U.S.C. 901 *et seq.*, provides benefits to coal miners who are totally disabled by black lung disease arising out of coal mine employment, and certain dependents and survivors. When a miner applies for benefits, the Division of Coal Mine Workers' Compensation (DCMWC) is required to give the miner an opportunity to establish his or her eligibility by providing a complete pulmonary evaluation, including a chest radiograph (X-ray), physical examination, pulmonary function tests, and arterial blood gas study. 30 U.S.C. 923(b); 20 CFR 718.101, 725.406. Forms CM-933, 933b, 988, 1159, and 2907 are used by physicians to report the results of these diagnostic tests. The information collected on these forms is

used to determine whether the miner is totally disabled due to black lung disease caused by coal mine employment. The Black Lung Benefits Act, 30 U.S.C. 901 *et seq.*, and implementing regulation, 20 CFR 725.406, authorize this information collection.

The form contains information required by medical institutions and private physicians to enable them to release pertinent medical information. This information collection is currently approved for use through November 30th, 2026.

This information collection is subject to PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1240-0023.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

II. Desired Focus of Comments

OWCP is soliciting comments concerning the proposed information collection related to the Claim Adjudication Process for the Alleged Presence of Pneumoconiosis. OWCP is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OWCP's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;

- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Documents related to this information collection request are available at <https://regulations.gov> and at DOL–OWCP located at 200 Constitution Avenue NW, Suite C3520–DCMWC Washington, DC 20210. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Background

The Black Lung Benefits Act (the Act), 30 U.S.C. 901–944, requires coal mine operators to be insured (either by qualifying as a self-insurer or obtaining commercial insurance) for liabilities arising from the Act; failure to do so may result in civil money penalties. 30 U.S.C. 933. Accordingly, 20 CFR Part V, Subpart C, 726.208–.213 requires insurance carriers to report to the Division of Coal Mine Workers’ Compensation (DCMWC) each policy and endorsement issued, cancelled, or renewed with respect to operators in such a manner and on such form as DCMWC may require. These regulations also require a carrier to file a separate report for each operator it insures. Carriers use Form CM–921, Notice of Issuance of Insurance Policy, to report issuance of insurance policies to operators. This information collection is currently approved for use through November 30, 2026. 30 U.S.C. 901 and 20 CFR 725.535 authorizes this information collection.

II. Desired Focus of Comments

OWCP is soliciting comments concerning the proposed information collection related to the Notice of Issuance of Insurance Policy. OWCP/DCMWC is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;

- Evaluate the accuracy of OWCP’s estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
