BILLING CODE 4510–27–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NASA Document Number: 26–030]

Name of Aerospace Safety Advisory Panel; Meeting.

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, the National Aeronautics and Space Administration announces a forthcoming meeting of the Aerospace Safety Advisory Panel (ASAP).

DATES: Monday, June 22, 2026, 2:00 p.m. to 3:30 p.m., Eastern time.

ADDRESSES: Public attendance will be virtual only. See dial in information below under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Ms. Marcia Guignard, ASAP Administrative Officer, NASA Headquarters, Washington, DC 20546, (202) 358–4717 or marcia.guignard@nasa.gov.

SUPPLEMENTARY INFORMATION: The Aerospace Safety Advisory Panel (ASAP) will hold its Second Quarterly Meeting for 2026. This discussion is pursuant to carrying out its statutory duties for which the Panel reviews, identifies, evaluates, and advises on those program activities, systems, procedures, and management activities that can contribute to program risk. Priority is given to those programs that involve the safety of human flight. The agenda will include:

- Updates on the Commercial Crew Program
- Update on Commercial LEO Development Programs
- Updates on Advanced Exploration Systems Development Program
- Updates on Health and Human Exploration

This meeting is only available telephonically. Any interested person may call the USA toll free conference call number 800–369–3107; passcode 3116192 and then the # sign. At the beginning of the meeting, members of the public may make a verbal presentation to the Panel on the subject of safety in NASA, not to exceed 5 minutes in length. To do so, members of

the public must contact Ms. Marcia Guignard, at marcia.guignard@nasa.gov, or at (202) 358–4717 at least 48 hours in advance. Any member of the public is permitted to file a written statement with the Panel via electronic submission to Ms. Guignard at the email address previously noted. Verbal presentations and written statements should be limited to the subject of safety in NASA. It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Jamie M. Krauk,

*Advisory Committee Management Officer,
National Aeronautics and Space Administration.*

BILLING CODE 7510–13–P

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

Subject 60-Day Notice for the “Arts Basic Survey” Proposed Collection; Comment Request

AGENCY: National Endowment for the Arts.

ACTION: Notice.

SUMMARY: The National Endowment for the Arts (NEA), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the NEA is soliciting comments concerning the proposed information collection on arts participation in the U.S. A copy of the current information collection request can be obtained by contacting the office listed below in the address section of this notice.

DATES: Written comments must be submitted to the office listed in the address section below within 60 days from the date of this publication in the **Federal Register**.

ADDRESSES: Send comments to Sunil Iyengar, National Endowment for the Arts, via email (research@arts.gov).

SUPPLEMENTARY INFORMATION: The NEA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Dated: May 21, 2026.

RaShaunda Thomas,

Administrative Officer (Deputy), Office of Administrative Services & Contracts, National Endowment for the Arts.

BILLING CODE 7537–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 040–08968; NRC–2026–1882]

NuFuels Inc.; Crownpoint Uranium Project In-Situ Recovery Facility; License Renewal Application

AGENCY: Nuclear Regulatory Commission.

ACTION: Opportunity to request a hearing and petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering an application for the renewal of Source and Byproduct Materials License Number SUA–1580, which authorizes NuFuels, Inc. to operate the Crownpoint Uranium Project (CUP) *In-Situ* Recovery Facility—a facility that has not been constructed. The applicant requests a renewed license that, if granted, would authorize it to operate the CUP *In-Situ* Recovery Facility for 20 years beyond the date of such approval.

DATES: A request for a hearing or petition for leave to intervene must be filed by July 27, 2026.

ADDRESSES: Please refer to Docket ID NRC–2026–1882 when contacting the NRC about the availability of information regarding this document.

You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website*: Go to <https://www.regulations.gov> and search for Docket ID NRC–2026–1882. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301–415–1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR*: The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: James Smith, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–415–6103; email: James.Smith@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC received a license renewal application (LRA) from NuFuels, Inc., dated January 22, 2025, (ADAMS Package Accession No. ML25022A289) requesting renewal of Source and Byproduct Materials License Number SUA–1580. NuFuels, Inc., a subsidiary of Laramide Resources, Ltd., proposes to develop in-situ recovery (ISR) operations in McKinley County, New Mexico. NuFuels, Inc. submitted the application, pursuant to part 2 and part 40 of title 10 of the *Code of Federal Regulations* (10 CFR). The CUP *In-Situ* Recovery Facility will consist of three separate satellite facilities at the Crownpoint, Unit 1, and Church Rock Section 8 project areas. Uranium recovered from Church Rock Section 17

will be processed at the adjacent Section 8 satellite facility. In addition to the satellite facilities, NuFuels will construct the currently licensed Crownpoint Central Plant (CCP) within the Crownpoint project area.

NuFuels proposes to construct and operate wellfields and associated infrastructure within the project areas to extract uranium from the Westwater Canyon Member of the Morrison Formation. Recovered uranium-bearing solutions will be processed at satellite facilities located at the Crownpoint, Unit 1, and Church Rock Section 8 project areas.

These satellite facilities will recover uranium using pressurized down-flow ion exchange (IX) columns. The loaded resin from the IX columns will then be transported to the CCP for further processing and drying. Each satellite facility is designed for a production capacity of up to 1 million pounds of triuranium octoxide (U₃O₈) per year.

The current license authorizes NuFuels, Inc., to operate the CCP, which is a uranium recovery facility that has not been constructed. The project involves building and operating an ISR uranium facility near Church Rock and Crownpoint, New Mexico. ISR (formerly referred to as in-situ leach or ISL) is a mining method that removes uranium from underground by circulating a solution through the rock.

The NRC staff has determined that NuFuels, Inc., has submitted sufficient information to enable the staff to undertake a technical review of the application and that the application is, therefore, acceptable for docketing. The current docket number, 040–08968, for license SUA–1580, will be retained. The determination to accept the LRA for docketing does not constitute a determination that a renewed license should be issued and does not preclude the NRC staff from requesting additional information as the review proceeds.

Before making a licensing decision on the request for a renewed license, the NRC will make the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The NRC may issue a renewed license based on its review if it finds there is reasonable assurance that the activities authorized by the renewed license will continue to meet the requirements for the issuance of a license under the Act and the Commission's regulations. The license SUA–1580 will not be deemed to have expired until the status of the application has been finally determined.

Additionally, in accordance with part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC will

prepare a National Environmental Policy Act (NEPA) environmental document for the proposed license renewal in accordance with the NRC's NEPA-implementing regulations in 10 CFR part 51.

II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any person (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. If a petition is filed, the presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

Petitions must be filed no later than 60 days from the date of publication of this notice in accordance with the filing instructions in the "Electronic Submissions (E-Filing)" section of this document. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii).

A State, local governmental body, federally recognized Indian Tribe, or designated agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h) no later than 60 days from the date of publication of this notice. Alternatively, a State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof, may participate as a non-party under 10 CFR 2.315(c).

For information about filing a petition and about participation by a person not a party under 10 CFR 2.315, see ADAMS Accession No. ML20340A053 (<https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML20340A053>) and on the NRC's public website at <https://www.nrc.gov/about-nrc/regulatory/adjudicatory/hearing.html#participate>.

III. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including documents filed by an interested State, local governmental body, Federally recognized Indian Tribe, or designated agency thereof that requests to participate under 10 CFR 2.315(c), must be filed in accordance with 10 CFR

2.302. The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases, to mail copies on electronic storage media, unless an exemption permitting an alternative filing method, as further discussed, is granted. Detailed guidance on electronic submissions is located in the “Guidance for Electronic Submissions to the NRC” (ADAMS Accession No. ML13031A056), and on the NRC’s public website (<https://www.nrc.gov/site-help/e-submittals.html>).

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301–415–1677, to: (1) request a digital identification (ID) certificate which allows the participant (or their counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or their counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website (<https://www.nrc.gov/site-help/e-submittals/getting-started.html>). After a digital ID certificate is obtained and a docket is created, the participant must submit adjudicatory documents in the Portable Document Format. Guidance on submissions is available on the NRC’s public website (<https://www.nrc.gov/site-help/electronic-sub-ref-mat.html>). A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. ET on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email confirming receipt of the document. The E-Filing system also distributes an email that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or

their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed to obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC’s adjudicatory E-Filing system may seek assistance by contacting the NRC’s Electronic Filing Help Desk through the “Contact Us” link located on the NRC’s public website (<https://www.nrc.gov/site-help/e-submittals.html>), by email to MSHD.Resource@nrc.gov, or by a toll-free call at 1–866–672–7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., ET, Monday through Friday, except Federal holidays.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted in accordance with 10 CFR 2.302(b)–(d). Participants filing adjudicatory documents in this manner are responsible for serving their documents on all other participants. Participants granted an exemption under 10 CFR 2.302(g)(2) must still meet the electronic formatting requirement in 10 CFR 2.302(g)(1), unless the participant also seeks and is granted an exemption from 10 CFR 2.302(g)(1).

Documents submitted in adjudicatory proceedings will appear in the NRC’s electronic hearing docket, which is publicly available on the NRC’s public website (<https://adams.nrc.gov/ehd>), unless otherwise excluded pursuant to an order of the presiding officer. If you do not have an NRC-issued digital ID certificate as previously described, click “cancel” when the link requests certificates and you will be automatically directed to the NRC’s electronic hearing docket where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information such as social security numbers, home addresses, or personal phone numbers in their filings unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants should not include copyrighted materials in their submission.

Copies of the application to renew NuFuels’ license for the CUP *In-Situ* Recovery Facility are available for public inspection at the NRC’s PDR, and on the NRC’s public website at <https://www.nrc.gov/materials/uranium-recovery/license-apps>, while the application is under review. The application may be accessed in ADAMS through the NRC Library on the internet at <https://www.nrc.gov/reading-rm/adams.html> under ADAMS Package Accession No. ML25022A289. As previously stated in this document, persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS may contact the NRC’s PDR reference staff by telephone at 1–800–397–4209 or 301–415–4737, or by email to PDR.Resources@nrc.gov.

(Authority: 42 U.S.C. 2011 *et seq.*)

Dated: May 21, 2026.

For the Nuclear Regulatory Commission.

Candace Spore,

Acting Chief, Uranium Recovery and Materials Decommissioning Branch, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590–01–P

**OFFICE OF PERSONNEL
MANAGEMENT**

[Docket ID: OPM–2026–0100]

**Confidential Government Information
Nondisclosure Agreement**

AGENCY: Office of Personnel Management.

ACTION: Notice with request for comment.

SUMMARY: The Office of Personnel Management (OPM) requests comment on a draft nondisclosure agreement (NDA) for use by Federal agencies for both new and existing employees. The form is intended to document Federal employees’ acknowledgment of, and agreement to comply with, current legal obligations to safeguard non-public, confidential, or proprietary information, created or obtained through their official duties, while expressly preserving the right to make disclosures authorized by law. OPM believes that a governmentwide NDA form will promote consistency across Government, better protect confidential information, and better inform Federal employees of their rights and obligations regarding confidential information.
