

protection from criminal prosecution and to aid in the identification of potential safety defects in motor vehicles and motor vehicle equipment.

Affected Public: Those affected are motor vehicle and motor vehicle equipment manufacturers, including officers or employees thereof, and other persons who respond to or have a duty to respond to an information collection pursuant to 49 U.S.C. 30166 or a regulation, requirement, request, or order issued thereunder. The information collection applies to persons who seek “safe harbor” under § 30170.

Estimated Number of Respondents: One.

Frequency: As needed basis.
Number of Responses: One.

Estimated Total Annual Burden Hours: Two hours annually.

NHTSA estimates that one person per year will submit a report under this collection of information. NHTSA also estimates that a maximum of two hours would be needed to gather and provide the information. Thus, NHTSA estimates that two burden hours a year would be spent on this collection of information.

To calculate the labor cost associated with submitting the collection of information, NHTSA looked at wage estimates for the type of personnel involved with compiling and submitting the documents. NHTSA estimates the total labor costs associated with these burden hours by looking at the average

wage for Management Occupations. The Bureau of Labor Statistics (BLS) estimates that the average hourly wage for Management Occupations (BLS Occupation code 11–0000) in the Management of Companies and Enterprises Industry is \$79.82.¹ The Bureau of Labor Statistics estimates that private industry workers’ wages represent 70.1% of total labor compensation costs.² Therefore, NHTSA estimates the hourly labor costs to be \$113.87 for BLS Occupation code 11–0000. NHTSA likewise estimates the total labor cost associated with the two burden hours to be \$227.74. Table 1 provides a summary of the estimated burden hours and labor costs associated with those submissions.

TABLE 1—BURDEN ESTIMATES

Annual responses	Estimated burden per response (hours)	Average hourly labor cost	Labor cost per submission	Total burden hours	Total labor costs
1	2	\$79.82	\$113.87	2	\$227.74

Estimated Total Annual Burden Cost: \$12.90.

Assuming the respondent uses the U.S. Postal Service, NHTSA estimates that each mailed response is estimated to cost \$12.90 (priority flat rate envelope from USPS). Accordingly, NHTSA estimates the total annual costs for this information collection to be \$12.90 (1 submission × \$12.90). If the respondent emails the report to NHTSA, the cost may be less than \$12.90.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
