

For entries of subject merchandise during the POR produced by Kiswire and Wei Dat for which these companies did not know the merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.<sup>9</sup> For Southern PC Steel, we will assign an assessment rate based on the methodology described in the “Rates for Non-Examined Companies” section, above.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

#### Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results as provided by section 751(a)(2) of the Act: (1) the cash deposit rate for the companies listed in these final results will be equal to the weighted-average dumping margin established in these final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior completed segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the completed segment for the most recent period; (3) if the exporter is not a firm covered in this review or a completed prior segment of this proceeding but the producer is, then the cash deposit rate will be the cash deposit rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 5.13 percent, the all-others rate established in the less-than-fair-value investigation.<sup>10</sup> These cash deposit requirements, when imposed, shall remain in effect until further notice.

<sup>9</sup>For a full discussion of this practice, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

#### Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

#### Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

#### Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.221(b)(5).

Dated: May 29, 2026.

On March 4, 2026, Commerce received an adequate substantive response from the domestic interested parties, within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).<sup>6</sup> Commerce did not receive a substantive response from either the Government of China or a respondent interested party to this proceeding. On March 27, 2026, Commerce notified the U.S. International Trade Commission (ITC) that it did not receive an adequate substantive response from respondent interested parties.<sup>7</sup> As a result,

**Scope of the Order**

The products covered by the *Order* are vertical shaft engines from China. For a full description of the scope of the *Order*, see the Issues and Decisions Memorandum.<sup>8</sup>

**Analysis of Comments Received**

A complete discussion of all issues raised in this sunset review, including the likelihood of continuation or recurrence of subsidization and the countervailable subsidy rates likely to prevail if the *Order* were to be revoked, is contained in the Issues and Decision Memorandum.<sup>9</sup> A list of the topics discussed in the Issues and Decision

Memorandum is attached as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), which is available to registered users at <https://access.trade.gov>. In addition, complete versions of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/frnotices>.

**Final Results of Sunset Review**

Pursuant to sections 751(c) and 752(b) of the Act, Commerce determines that revocation of the *Order* would be likely to lead to continuation or recurrence of countervailable subsidies at the following net countervailable subsidy rates:

Producers/exporters	Net countervailable subsidy rate (percent <i>ad valorem</i> )
Loncin Motor Co .....	18.96
Chongqing Zongshen General Power Machine Co .....	20.38

Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.
