

Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the associated funerary objects in this notice may occur on or after July 6, 2026.

ADDRESSES: Send written requests for repatriation of the associated funerary objects in this notice to Kirsten Twork, Sonoma State University, 1801 E Cotati Avenue, Rohnert Park, CA 94928, email tworkk@sonoma.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Sonoma State University, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available a total of 35 associated funerary objects were identified.

A total of 28 associated funerary objects were removed from CA-LAK-270/H located west of Chalk Mountain near Spring Valley in Lake County, California. Paperwork documenting why the material was removed from the site was not located. The associated funerary objects are modified shell, abalone, modified obsidian, groundstone tools, faunal bone, modified glass scrapers, and a historic button. The cultural material has been at the university since 1976.

A total of two associated funerary objects were removed from CA-LAK-301 located west of the Benmore Canyon, south of Spring Valley in Lake County, California. Paperwork documenting why the material was removed from the site was not located. The associated funerary objects are modified obsidian. The material has been at the university since 1976.

A total of two associated funerary objects were removed from CA-LAK-303 located west of Chalk Mountain near Spring Valley in Lake County, California. Paperwork documenting why the material was removed from the site was not located. The associated funerary objects are modified obsidian. The material has been at the university since 1976.

A total of three associated funerary objects were removed from CA-LAK-731 located west of the Benmore Canyon, south of Spring Valley in Lake County, California. Paperwork documenting why the material was

removed from the site was not located. The associated funerary objects are modified obsidian. The material has been at the university since 1976.

In the case of missing cultural items, any additional items when located will also be repatriated from the collections discussed above. Based on records concerning the associated funerary objects and the institution in which they are housed, there is no evidence of the ancestors or items being treated with hazardous substances.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the associated funerary objects described in this notice.

Determinations

Sonoma State University has determined that:

- The 35 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the associated funerary objects described in this notice and the Cachil DeHe Band of Wintun Indians of the Colusa Indian Community of the Colusa Rancheria, California; Kletsel Dehe Wintun Nation of the Cortina Rancheria (previously listed as Kletsel Dehe Band of Wintun Indians); and the Yocha Dehe Wintun Nation, California.

Requests for Repatriation

Written requests for repatriation of the associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the associated funerary objects described in this notice to a requestor may occur on or after July 6, 2026. If competing requests for repatriation are received, Sonoma State University must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the associated funerary objects are considered a single request

and not competing requests. Sonoma State University is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.10.

Dated: May 29, 2026.

Melanie O'Brien,

Manager, National NAGPRA Program.

Notice of Inventory Completion: Natural History Museum of Utah, University of Utah, Salt Lake City, UT

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the Natural History Museum of Utah, University of Utah has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after July 6, 2026.

ADDRESSES: Send written requests for repatriation of the human remains and associated funerary objects in this notice to Katie Saunders, Natural History Museum of Utah, University of Utah, 301 Wakara Way, Salt Lake City, UT 84108, email ksaunders@nhmu.utah.edu.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Natural History Museum of Utah, University of Utah, and additional information on the

determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Human remains representing at least five individuals have been identified. The three lots of associated funerary objects consist of one lot of approximately 38 ceramic vessels, one lot of more than 200 ceramic sherds and one gourd bowl. Of this number, one ceramic vessel and one gourd bowl could not currently be located in the museum. The Natural History Museum of Utah continues to search for these funerary objects. The five individuals and the associated funerary objects included in this notice were removed from an Ancestral Puebloan site known as 05MT5, Yellow Jacket Ruin, Yellow Jacket Pueblo, Square Mug House, and the Great Tower Complex located in Montezuma County, Colorado. The five individuals and the associated funerary objects were excavated in 1930 by C. A. Thomas and V.F. Lotrich for Western State College Museum (now known as the CT Hurst Museum at Western Colorado University). They were transferred to the University of Utah in 1957. No known potentially hazardous substances were used to treat the individuals from 05MT5. However, records at the Natural History Museum of Utah indicate that some of the associated funerary objects were treated with a potentially hazardous substance. Records note that some objects were fumigated but do not mention the substance used.

Human Remains representing at least one individual were removed from an unknown location in Southwestern Colorado. The individual was presented to the University of Utah in 1908 by a Mr. Jorgenson of Monticello, Utah. No associated funerary objects are present. No known potentially hazardous substances were used to treat this individual.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The Natural History Museum of Utah, University of Utah has determined that:

- The human remains described in this notice represent the physical
