Chlorinated Isocyanurates From Spain: Final Results of Antidumping Duty Administrative Review; 2023-2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that sales of chlorinated isocyanurates (chlorinated isos) from Spain were not sold in the United States at less than normal value during the period of review (POR), June 1, 2023, through May 31, 2024.

DATES: Applicable June 4, 2026.

FOR FURTHER INFORMATION CONTACT: Colton Dulin, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-1222.

SUPPLEMENTARY INFORMATION:

Background

On October 3, 2025, Commerce published the *Preliminary Results* of this administrative review in the **Federal Register** and invited comments from interested parties.¹ We received no comments from interested parties on the *Preliminary Results*, and we made no changes from the *Preliminary Results*. Accordingly, no decision memorandum accompanies this notice and the *Preliminary Results* are hereby adopted as these final results. Commerce conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order²

The products covered by the *Order* are chlorinated isos, which are derivatives of cyanuric acid, described as chlorinated s-triazine triones. For a full description of the scope of the *Order*, see the *Preliminary Results* PDM.

¹ See *Chlorinated Isocyanurates from Spain: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review; 2023-2024*, 90 FR 48044 (October 3, 2025) (*Preliminary Results*), and accompanying Preliminary Decision Memorandum (PDM).

² See *Chlorinated Isocyanurates from Spain: Notice of Antidumping Duty Order*, 70 FR 36562 (June 24, 2005) (*Order*).

Final Results of Review

As a result of our review, we determine the following estimated weighted-average dumping margins for the period June 1, 2023, through May 31, 2024:

Manufacturer/exporter	Weighted-average dumping margin (percent)
Ercros S.A	0.00

Disclosure

Normally, Commerce discloses to interested parties the calculations of the final results of an administrative review within five days of a public announcement or, if there is no public announcement, within five days of the date of publication of the notice of final results in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, because we have made no changes from the Preliminary Results, there are no calculations to disclose.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce has determined in these final results of this review, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise during the POR. Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for examined sales to each importer to the total entered value of those sales. Where an importer-specific assessment rate is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. In accordance with Commerce's "automatic assessment" practice, for entries of subject merchandise that entered the United States during the POR that were produced by Ercros for which it did not know that its merchandise was destined to the United States, Commerce will instruct CBP to liquidate unreviewed entries at the all-others rate (*i.e.*, 24.83 percent),³ if there is no rate for the intermediate company(ies) involved in the transaction.⁴

Commerce intends to issue assessment instructions to CBP no

earlier than 35 days after the date of publication of these final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of chlorinated isos from Spain entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register**, as provided for by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for Ercros will be equal to the weighted-average dumping margin established in the final results of this administrative review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rates will be zero; (2) for previously reviewed or investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the producer or exporter participated; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 24.83 percent, the all-others rate established in the investigation.⁵ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Administrative Protective Order (APO)

This notice also serves as a reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

⁵ See *Order*.

Notification to Interested Parties

These final results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.221(b)(5).

Dated: June 1, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Certain Corrosion Inhibitors From the People's Republic of China: Preliminary Results of the Antidumping Duty Administrative Review; 2024–2025

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that producers/exporters subject to this review made sales of subject merchandise at less than normal value (NV) during the period of review (POR) March 1, 2024, through February 28, 2025. Interested parties are invited to comment on these preliminary results of review.

DATES: Applicable June 4, 2026.

FOR FURTHER INFORMATION CONTACT: Dusten Hom, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–5075.

SUPPLEMENTARY INFORMATION:

Background

On March 19, 2021, based on timely requests of review, in accordance with 19 CFR 351.221(c)(1)(i), we initiated an administrative review of the antidumping duty (AD) order on certain corrosion inhibitors from the People's Republic of China (China) with respect to 10 companies.¹ On June 11, 2025, Commerce selected Anhui Trust Chem Co., Ltd. (ATC) and Nantong Botao Chemical Co., Ltd (Botao) as the mandatory respondents in this review.²

¹ See *Certain Corrosion Inhibitors from the People's Republic of China: Antidumping Duty Order*, 86 FR 14869 (March 19, 2021) (*Order*).

² See Memorandum, “Respondent Selection,” dated June 11, 2025.

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days,³ and, due to a backlog of documents that were electronically filed via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government shutdown, on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by an additional 21 days.⁴ On January 20, 2026, Commerce extended the deadline for issuing the preliminary results of this review until June 1, 2026.⁵

For a complete description of the events that followed the initiation of this administrative review, see the Preliminary Decision Memorandum.⁶ A list of this topics discussed in the Preliminary Decision Memorandum is attached as an appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via ACCESS. ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/frnotices>.

Scope of the Order

The merchandise subject to the *Order* is corrosion inhibitors from China. For a complete description of the scope of the *Order*, see the Preliminary Decision Memorandum.⁷

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act). Because China is a non-market economy (NME) country within the meaning of section 771(18) of the Act, we calculated normal value in accordance with section 773(c) of the Act. For a full description of the methodology underlying our

preliminary results, see the Preliminary Decision Memorandum.

Separate Rates

We preliminarily determine that, in addition to ATC and Botao, two companies not individually examined are eligible for separate rates in this administrative review, Gold Chemical Limited (Gold Chemical) and Kanghai Chemical Co., Ltd. (Chuzhou Kanghai).⁸ The Act and Commerce's regulations do not address the establishment of a separate rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for separate-rate respondents which Commerce did not examine individually in an administrative review.

In these preliminary results, we calculated rates for ATC and Botao that are not zero, *de minimis*, or based entirely on facts available. Therefore, the rates of ATC and Botao are applicable to Chuzhou Kanghai and Gold Chemical, the companies not selected for individual examination but eligible for a separate rate. Accordingly, for the preliminary results, we are assigning to Chuzhou Kanghai and Gold Chemical an estimated weighted-average dumping margin based on the average of the two individually examined respondents' rates weighted by their publicly available ranged U.S. sales values.⁹

China-Wide Entity

Commerce's policy regarding the conditional review of the China-wide entity applies to this administrative review.¹⁰ Under this policy, the China-wide entity will not be under review unless a party specifically requests, or Commerce self-initiates, a review of the entity. Because no party requested a review of the China-wide entity, the entity is not under review, and the
