

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**[Docket No. FR-7106-N-18]****Privacy Act of 1974; System of Records****AGENCY:** Office of Public and Indian Housing, HUD.**ACTION:** Notice of a modified system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, as amended, the Department of Housing and Urban Development (HUD), Office of Public and Indian Housing, is issuing a public notice of its intent to modify a Privacy Act system of records titled, Enterprise Income Verification (EIV) by: (1) reinstating two routine uses that were previously removed in error and that support the EIV user community; (2) updating the system manager and agency contact; (3) updating Authority for Maintenance of the System, and Record Source Categories and (4) reflecting system updates, including implementation of a new Systematic Alien Verification for Entitlements (SAVE) Report and replacement of the Income Discrepancy Report with the Income Validation Tool (IVT) built on the MicroStrategy platform. These updates are explained in the Supplementary Information section of this notice. EIV is used to verify program participants' and tenants' reported income, identify unreported income sources and/or amounts, and identify substantial annual income discrepancies among households that receive HUD-provided rental assistance through programs administered by HUD's Office of Public and Indian Housing (PIH) and the Office of Housing, Multifamily Housing Programs (MF).

SUPPLEMENTARY INFORMATION: EIV is used to verify program participants' and tenants' reported income, identify unreported income sources and/or amounts, and identify substantial annual income discrepancies among households that receive HUD-provided rental assistance through programs administered by PIH and MF. The changes to this SORN include an update to the name of the System Manager and Agency Contact. The Authority for Maintenance of the System was modified to include the Payment Integrity Information Act of 2019 and the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. In addition, EIV is implementing a new SAVE Report that matches data from the Department of Homeland Security/U.S. Citizenship and Immigration Services (DHS/USCIS) SAVE Program with HUD resident data so that PHAs can be notified when individuals on their rent rolls require verification or removal, consistent with applicable program requirements. The Categories of Records in the System and the Record Source Categories were modified to include this new information. This notice includes organizational and substantive changes to the Routine Use section. The Routine Uses were reorganized from letters to numbers. This notice reinstates two routine uses (13 and 14) that were previously removed in error. The administrative error involved the removal of routine uses that support the EIV user community, which consists of Public Housing Agencies (PHAs), private owners and management agents (O/As), and Contract Administrators (CAs) under contract with HUD. Routine

Use D (now Routine Use 4) was modified to include greater specificity and clarify that disclosures were permitted for eligibility determinations. Routine Use E (now Routine Use 5 and 16) was modified for clarity. Routine Use F was eliminated as duplicative. Routine Use H was reorganized into two parts: Routine Uses 7 and 8. Routine Uses I, K, L, and M were combined into Routine Use 9, which contains HUD's standard law enforcement routine use language. Routine Use J (now Routine Use 10) was edited to contain HUD's standard court disclosure routine use language. This notice also incorporates Routine Use 12, which was added by 91 FR 2137 (January 16, 2026) to support compliance with Executive Order M-25-32, *Preventing Improper Payments and Protecting Privacy Through Do Not Pay*, which authorizes disclosures to the U.S. Department of the Treasury through the Do Not Pay Working System for the purposes of identifying, preventing, or recouping improper payments. Routine Use 15 was added to facilitate FOIA mediation. Routine Use 16 was added to facilitate the preparation of studies and statistical reports directly related to the management of HUD's rental assistance programs, which had previously been a part of Routine Use E. EIV has also been modified by replacing the Income Discrepancy Report with the IVT built on the MicroStrategy platform. This modification addresses findings and recommendations in OIG Audit No. 2014-FO-0004 related to improper payments and the identification of tenant unreported and/or underreported income during mandatory reexaminations of family composition and income. The IVT reduces false positives previously associated with the Income Discrepancy Report and improves HUD's ability to support rental subsidy determinations and assess improper payments. The IVT enables detailed analysis of income, wage, and Social Security benefit information at the household and individual level.
