SUPPLEMENTARY INFORMATION: This information collection activity will gather qualitative and quantitative customer and stakeholder feedback in an efficient, timely manner, in accordance with PBGC's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on the public's perceptions and opinions. By quantitative feedback we mean numeric scores evaluating PBGC services and customer satisfaction using the American Customer Satisfaction Index (ACSI) methodology. This feedback provides insights into customer or stakeholder perceptions, experiences and expectations, provides early warnings of issues with service, and focuses attention on areas where changes in PBGC's communication with the public, in training of staff, or in operations might improve the delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between PBGC and its customers and stakeholders. These collections also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback targets areas, such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information were not collected, vital feedback from customers and stakeholders on PBGC's services would be unavailable.

PBGC only submits a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Except for information that will be included in PBGC's annual report, information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information from qualitative surveys gathered will yield qualitative results; the collections will not be designed or expected to yield statistically reliable results or be used as though the results are generalizable to the population of interest;
- Information from quantitative surveys will be based on statistical methods and will yield quantitative results, such as satisfaction scores that can be generalized to the population.

As a general matter, these information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Annually, over the next three years, PBGC estimates that it will conduct three activities involving about 2,325 respondents, each of whom will provide one response. The number of respondents will vary by activity: 25 for usability testing, 50 for focus groups (5 groups of 10 respondents), and 2,250 for customer satisfaction surveys.

PBGC estimates the annual burden of this collection of information as 713 hours: 2 hours per response for usability testing (total 50 hours); 2 hours per response for focus groups (total 100 hours); and 15 minutes per response for customer satisfaction surveys (total 563

hours). No cost burden to the public is anticipated. PBGC is proposing to add additional language in its survey to make it clear that respondents should not add PII.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC is soliciting public comments to—

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

- I. Introduction
- II. Public Proceeding(s)
- III. Summary Proceeding(s)

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to Competitive negotiated service agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

Section II identifies the docket number(s) associated with each Postal Service request, if any, that will be reviewed in a public proceeding as defined by 39 CFR 3010.101(p), the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each such request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 and 39 CFR 3000.114 (Public Representative). The Public Representative does not represent any individual person, entity or particular point of view, and, when Commission attorneys are appointed, no attorney-client relationship is established. Section II also establishes comment deadline(s) pertaining to each such request.

The Commission invites comments on whether the Postal Service's request(s) identified in Section II, if any, are consistent with the policies of title 39. Applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3041. Comment deadline(s) for each such request, if any, appear in Section II.

Section III identifies the docket number(s) associated with each Postal Service request, if any, to add a

standardized distinct product to the Competitive product list or to amend a standardized distinct product, the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. Standardized distinct products are negotiated service agreements that are variations of one or more Competitive products, and for which financial models, minimum rates, and classification criteria have undergone advance Commission review. See 39 CFR 3041.110(n); 39 CFR 3041.205(a). Such requests are reviewed in summary proceedings pursuant to 39 CFR 3041.325(c)(2) and 39 CFR 3041.505(f)(1). Pursuant to 39 CFR 3041.405(c)-(d), the Commission does not appoint a Public Representative or request public comment in proceedings to review such requests.

I. Introduction

The Commission notifies the public of filing of the explanation of the current methodology used by the Commission to value the Postal Service's universal service obligation (USO). The Commission provides until July 7, 2026 for public comment regarding the current USO valuation methodology, including any suggested modifications or enhancements.

II. Procedural History

In December 2020, the Commission established the instant docket to revisit the methodology it uses to estimate the cost of the Postal Service's USO.¹ Since then, several Chairman's information requests have been issued and the Postal Service has responded to them.² Several motions and responses were filed.³ The Commission granted one motion.⁴ The
