

positioning system Y-code and M-code operation when loaded with NSA approved COMSEC keys via SKL. EAGLE M EGI supports the CH-47F, UH-60M, UH-60V, Future Attack and Reconnaissance Aircraft. Requires written U.S. Space Force Release Authorization in General. No technical manual for EAGLE M devices. EAGLE M devices follow two-level maintenance, operator, and depot.

The CIRCM system is the next-generation lightweight, laser-based, infrared countermeasure system for rotary-wing, tilt-rotor, and small fixed-wing aircraft across the Department of War. CIRCM provides near spherical coverage of the host platform to defeat infrared-seeking threat missiles. CIRCM receives an angular bearing hand-off from the CMWS and employs a pointing and tracking system that acquires and tracks an incoming missile. CIRCM jams the missile by using modulated laser energy, thus degrading the tracking capability of the missile and causing it to miss the aircraft.

The KGV-72 programmable encryption device provides traffic encryption for Force Battle Command Brigade and Below (FBCB2) BFT satellite network multicast and unicast transmission of mapping, short messaging, and geolocation application data. Designed for use in tactical ground and rotary wing platforms, the KGV-72 connects to a commercial L-Band transceiver and FBCB2 BFT computer to secure beyond LOS communication.

The Sensitivity of Technology Statement contained in the original notification applies to additional items mentioned.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

[Transmittal No. 26-1C]

Arms Sales Notification

AGENCY: Defense Security Cooperation Agency (DSCA), Department of Defense (DoD).

ACTION: Arms sales notice.

SUMMARY: The DoD is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT:

Urooj Zahra at (703) 695-6233, urooj.zahra.civ@mail.mil, or dscna.ncr.rsrcmgmt.list.cns-mbx@mail.mil.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 26-1C.

Dated: June 3, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. 26-1C

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(C), AECA)

(i) *Prospective Purchaser:* Government of Germany

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 23-26

Date: May 11, 2023

Implementing Agency: Army

Funding Source: National Funds

(iii) *Description:* On May 11, 2023, Congress was notified by congressional certification transmittal number 23-26 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of sixty (60) CH-47F Block II cargo helicopters with customer-unique modifications; one hundred forty (140) T-55-GA-714A engines (120 installed, 20 spares); seventy-two (72) AN/AAR-57 Common Missile Warning Systems (60 installed, 12 spares); and two hundred eighty-four (284) AN/ARC-231A Communications Security (COMSEC) radios (240 installed, 44 spares). Also included were AN/AVR-2B laser detecting sets; AN/APR-39C(V)1 radar detecting sets; AN/ARC-220 High Frequency radios with Electronic Counter-Countermeasures; military Precise Positioning Service (to include Selective Availability Anti-Spoofing Module or M-code); Digital Advanced Flight Control Systems; AN/APX-123A Identification Friend or Foe (IFF) transponder; AN/ARN-147 Very High Frequency Omnidirectional Range and Instrument Landing System; AN/ARN-153 Tactical Air Navigation Systems; air data computers; AN/APN-209 radar altimeter systems; AN/PYQ-10 simple key loaders; KIV-77 Mode ⁴/₅ IFF applique; KY-100M Narrowband/Wideband terminal COMSEC devices; AN/AVS-6 night vision devices; IDM-401 improved data modem; air-to-air refueling probes; M134 gun mounts; infrared suppression system; engine air particle separator; ballistic protection

system with cockpit; cabin sides; Midas underfloor cooling system; Extended Range Fuel Systems (ERFS) 800 gal and 500 gal; forward area refueling equipment; tie down materiel and helicopter under-slung load equipment for internal and external loads; rotor brake; rescue hoists; fast rope insertion/extraction system; electro optical infrared sensors; crash resistant pilot and troop seats; skis; life rafts; litter straps and fittings; mission equipment (e.g., jungle penetrator; litter basket; and Jacob's Ladder); airborne tactical extraction platform; special tools and test equipment; ground support equipment; airframe and engine spare parts; technical data; publications; maintenance work orders/engineering change proposals; repair and return; technical assistance; airworthiness assistance; transportation of aircraft; training; flight training and maintenance trainers; and other related elements of logistics and program support. The estimated total program value was \$8.50 billion. Major defense equipment (MDE) constituted \$3.35 billion of this total.

On April 23, 2025, Congress was notified by congressional certification transmittal number 25-0G of the possible sale, under Section 36(b)(5)(C) of the Arms Export Control Act, of the following additional MDE items: forty-seven (47) OT-228/U Common Infrared Countermeasures; and one hundred forty-four (144) "EAGLE-M" aviation navigation systems comprised of Enhanced Aviation Global Air Traffic Management systems, Localizer Performance with Vertical Guidance instruments, and Embedded Global Positioning System (GPS)/Inertial Navigation Systems with M-code. The following non-MDE items were also included: Multi-Platform Anti-Jam GPS Navigation Antenna-Federated, Type Designator: AS-4840; communications systems; and other related elements of logistics and program support. The estimated total cost of the new items was \$0.63 billion. The MDE value increased by \$0.63 billion to a revised \$3.98 billion but did not require an increase in the estimated total case value. Instead, \$0.63 billion of the available, previously notified non-MDE value was transferred to the MDE value, causing a decrease in the non-MDE value to \$4.52 billion. The estimated total case value remained unchanged at \$8.50 billion.

This transmittal notifies a pricing increase of previously reported CH-47F Block II Cargo Helicopters; and the addition of seventy-two (72) Radar Detecting Sets, AN/APR-39E(V)2. The estimated MDE value will increase by \$1.02 billion to a revised \$5.0 billion

but will not require an increase in the estimated total case value. Instead, \$1.02 billion of the available, previously notified non-MDE value will be transferred to the MDE value, causing a decrease in the non-MDE value to \$3.50 billion. The estimated total case value of \$8.50 billion will remain unchanged. MDE constitutes \$5.0 billion of this total.

(iv) *Significance*: This notification accounts for a pricing adjustment and additional MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will improve Germany's heavy lift capability, intended to enhance its capability to strengthen its homeland defense and deter regional threats.

(v) *Justification*: This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology*:

The AN/APR-39E(V)2 Radar Warning Receiver is a radar threat detection system that passively detects, categorizes, and prioritizes radio frequency threats to aircraft and provides an audio/visual cue to the aircrew. AN/APR-39E(V)2 provides a fully digital capability to enhance threat discrimination in the millimeter wave band and increased overall system performance against frequency-agile radio frequency and Active Electronically Scanned Array threat radars.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: May 19, 2026

SUMMARY: The DoD is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT:

Urooj Zahra at (703) 695-6233, urooj.zahra.civ@mail.mil, or dscan.cr.rsrcmgmt.list.cns-mbx@mail.mil.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 26-45, Policy Justification, and Sensitivity of Technology.

Dated: June 3, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. 26-45

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser*: Republic of Korea

(ii) *Total Estimated Value*:

Major Defense Equipment *	\$2.3 billion
Other	\$0.7 billion
TOTAL	\$3.0 billion

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase*:

Major Defense Equipment (MDE):

Twenty-four (24) MH-60R Multi-Mission Helicopters

Fifty-two (52) Embedded Global Positioning System/Precise Positioning

Service/Inertial Navigation Systems with Selective Availability/Anti-Spoofing

Module (48 installed, 4 spares)

Twenty-four (24) Airborne Low Frequency Sonars

Eight (8) M240D 7.62mm machine guns

Non-MDE:

The following non-MDE items will also be included: T700-GE-401D engines; AN/AVS-9 Night Vision Devices (NVDs); M514 impulse cartridge/cartridge actuated devices; MJ20 cartridge actuated thruster/cartridge actuated devices; WB53 fire extinguisher cartridge/cartridge actuated devices; CCU-136A/A impulse cartridges; AN/AAR-47 missile warning systems; AN/APX-123 Identification Friend or Foe transponders; AN/ALE-47 dispenser, electronic countermeasures; AN/AAS-44C(V) multi-spectral targeting systems; IFF Mode 4/5 cryptographic applique, KIV-78; Joint Mission Planning Systems; Training Simulators/Operational Machine

Interface Assistants; Aviation Maintenance Weapons Loading Trainer; Tactical Operational Flight Trainer; AN/ALQ-210 Electronic Support Measures systems; APS-153(V) multi-mode radars; spare engine containers; spare and repair parts; support and test equipment; communications equipment; ferry support; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering, technical, and logistics support services; obsolescence engineering, integration, and test activities required to ensure readiness for the production of the Korean MH-60R Multi-Mission Helicopters; and other related elements of logistics and program support.

(iv) *Military Department*: Navy (KS-P-SEY)

(v) *Prior Related Cases, if any*: KS-P-SEL; KS-P-GST

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: See Attached Annex

(viii) *Date Report Delivered to Congress*: May 18, 2026

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Republic of Korea—MH-60R Multi-Mission Helicopters

Republic of Korea has requested to buy twenty-four (24) MH-60R Multi-Mission Helicopters; fifty-two (52) Embedded Global Positioning System/Precise Positioning Service/Inertial Navigation Systems with Selective Availability/Anti-Spoofing Module (48 installed, 4 spares); twenty-four (24) Airborne Low Frequency Sonars; and eight (8) M240D 7.62mm machine guns. The following non-major defense equipment items will also be included: T700-GE-401D engines; M514 impulse cartridge/cartridge actuated devices; MJ20 cartridge actuated thruster/cartridge actuated devices; WB53 fire extinguisher cartridge/cartridge actuated devices; CCU-136A/A impulse cartridges; AN/AAR-47 missile warning systems; AN/APX-123 Identification Friend or Foe transponders; AN/ALE-47 dispenser, electronic countermeasures; AN/AAS-44C(V) multi-spectral targeting systems; IFF Mode 4/5 cryptographic applique, KIV-78; Joint Mission Planning Systems; Training Simulators/Operational Machine
