

conditions for obtaining an exemption from the hearing requirement in the FMCSRs for interstate CMV drivers:

Leroy Carter (OH); and Richard Fisher (PA).

These drivers were included in docket number FMCSA–2017–0060. The exemptions were applicable as of June 29, 2026, and will expire on June 29, 2028.

VI. Terms and Conditions

The exemptions are extended subject to the following conditions: each driver (1) must report to FMCSA any crashes, as defined in 49 CFR 390.5T, within 7 days of the crash; (2) must report to FMCSA any citations and convictions for disqualifying offenses under 49 CFR parts 383 and 391, within 7 days of the citation and conviction; (3) must submit to FMCSA annual certified driving records from their SDLA; and (4) is prohibited from operating a motorcoach or bus with passengers in interstate commerce. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local law enforcement official. In addition, the driver must meet all the applicable commercial driver's license testing requirements.

VII. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VIII. Conclusion

Based upon its evaluation of the 28 exemption renewal applications, FMCSA renews the exemptions of the above-named drivers from the hearing requirement in 49 CFR 391.41(b)(11). In accordance with 49 U.S.C. 31315(b), and FMCSA's policy of issuing medical exemptions for a 2-year period to correspond with the medical certificate, each exemption will be valid for 2 years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) the person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of Title 49, chapter 313 or section 31136.

D. Privacy Act

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption request. DOT posts these comments, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice DOT/ALL–14 F/DMS (Federal Docket Management System), which can be reviewed under the “Department Wide System of Records Notices” link at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>. The comments are posted without edit and are searchable by the name of the submitter.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from the FMCSRs. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analysis. The Agency must provide an opportunity for public comment on the request.

The Agency reviews the application, safety analyses, and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level of safety that would be achieved absent such exemption, pursuant to the standard set forth in 49 U.S.C. 31315(b)(1). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)). If granted, the notice will identify the

regulatory provision from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)). If the exemption is denied, the notice will explain the reason for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)). FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

III. Background

The physical qualification standard for drivers regarding hearing, found in 49 CFR 391.41(b)(11), states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5–1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid (35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 8, 1971)). In 2008, FMCSA published Evidence Report, “Executive Summary on Hearing, Vestibular Function and Commercial Motor Driving Safety.”¹ The evidence report reached two conclusions regarding the matter of hearing loss and CMV driver safety: (1) no studies were identified that examined the relationship between hearing loss and crash risk exclusively among CMV; and (2) evidence from studies of the private driver’s license holder population does not support the contention that individuals with hearing impairment are at an increased risk for a crash.

On February 1, 2013, FMCSA began granting exemptions, on a case-by-case basis, to individual drivers from the physical qualification standard regarding hearing in 49 CFR 391.41(b)(11) (78 FR 7479 (Feb. 1, 2013)). The Agency considers relevant scientific information and literature, the 2008 Evidence Report, “Executive Summary on Hearing, Vestibular Function and Commercial Motor Driving Safety,” any public comments received, and each individual’s driving

record in deciding whether to grant the exemption.

The 11 individuals listed in this notice have requested an exemption from the hearing standard in 49 CFR 391.41(b)(11). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

In accordance with 49 U.S.C. 31315(b)(6), DOT solicits comments from the public on the exemption requests. DOT posts these comments, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice DOT/ALL-14 FDMS (Federal Docket Management System), which can be reviewed under the “Department Wide System of Records Notices” link at <https://www.transportation.gov/individuals/privacy/privacy-act-system-records-notices>. The comments are posted without edit and are searchable by the name of the submitter.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from the FMCSRs. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analysis. The Agency must provide an opportunity for public comment on the request.

The Agency reviews the application, safety analyses, and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved absent such exemption, pursuant to the standard set forth in 49 U.S.C. 31315(b)(1). If the exemption is denied, the notice will explain the reason for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)).

III. Background

The physical qualification standard for drivers regarding seizures and loss of consciousness provides that a person is physically qualified to drive a CMV if that person has “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely

to cause the loss of consciousness or any loss of ability to control” a CMV (49 CFR 391.41(b)(8)). To assist in applying this standard, FMCSA publishes guidance for medical examiners (MEs) in the form of medical advisory criteria in Appendix A to 49 CFR part 391.¹ In 2007, FMCSA published recommendations from a Medical Expert Panel (MEP) that FMCSA tasked to review the existing seizure disorder guidelines for MEs.² The MEP performed a comprehensive, systematic literature review, including evidence available at the time. The MEP issued recommended criteria to evaluate whether an individual with a history of epilepsy, a single unprovoked seizure, or a provoked seizure should be allowed to drive a CMV.

On January 15, 2013, FMCSA began granting exemptions, on a case-by-case basis, to individual drivers from the physical qualification standard regarding seizures and loss of consciousness in 49 CFR 391.41(b)(8) (78 FR 3069). The Agency considers the medical advisory criteria, the 2007 MEP recommendations, and each individual’s medical information and driving record in deciding whether to grant the exemption.

On March 2, 2026, FMCSA published a notice announcing receipt of applications from 14 individuals requesting an exemption from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8) and requested comments from the public (91 FR 10182). The public comment period ended on April 1, 2026, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that granting exemptions to these individuals would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with 49 CFR 391.41(b)(8).

IV. Discussion of Comments

FMCSA received no comments in this proceeding.

V. Basis for Exemption Determination

The Agency conducted an individualized assessment of each applicant’s medical information, including the root cause of the respective seizure(s) and medical
