SUPPLEMENTARY INFORMATION: On May 15, 2026, USTR published in the **Federal Register** a Request for Comments and Public Hearing About the Administration’s Action Following a Determination of Import Injury With Regard to Quartz Surface Products (QSP) (91 FR 28096). In that notice, USTR, on behalf of the TPSC, sought comments about what recommendation the TPSC should make to the President on the appropriateness of the safeguard measure recommended by the USITC with respect to its determination that QSPs are being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or the threat thereof, to the domestic industry producing an article that is like or directly competitive with the imported article.

Because of technical difficulties associated with posting documents to the docket, USTR is extending the period for submitting written responses to the initial round of comments to the Request for Comments and Public Hearing to June 10, 2026, at 5:00 p.m. EST, to provide the domestic producers, importers, exporters, and other interested parties additional time to prepare and submit such comments.

You can find general information about USTR at www.ustr.gov. USTR will post comments in the docket for public inspection, except properly designated BCI. You can view comments on Regulations.gov by entering the docket number in the search field on the home page.
